BLOODSHED IN WINNIPEG IS REPORTED

BIG WALK-OUT STARTED IN CITY TO-DAY WHEN BOILERMAKERS STRUCK

Large Part of Victoria Labor Will Quit Work on Monday at Call of Metal Trades Council; Winnipeg Arrests is Chief Cause

Unless there is a sudden change in the course of events in Winnipeg before the beginning of next week, Victoria will find herself in the throes of a strike almost general in character, according to the statements of responsible labor leaders to-day.

There is no doubt however general the strike may be that its real cause is what is considered by union men to be the unfair action of the Government in refusing certain of the Winnipeg strike leaders a trial in the civil courts.

The Metal Trades Council has jurisdiction over 4,000 workers, or a very large part of Victoria labor. If its plans mature practically all the shipyards, ship-repairing yards, and machine shops to Victoria will be closed at 10 o'clock on Monday morning.

STRIKERS IN VANCOUVER EXPECT WORD THE STRIKE IN WINNIPEG CALLED OFF

Vancouver, June 21.—The strike here will be called off coincidentally with similar action at Winnipeg, and this may take place within the next forty-eight hours.

A delegation from the Strike Committee will wait on Mayor Gale at the City Hall to-day to discuss local issues with him, declared chairman Charles Edwards, of the Strike Committee.

Mr. Edwards said that a settlement in Winnipeg would practically mean an automatic settlement here, providing that no local issues should develop which could not be settled amicably.

Other members of the Strike Committee admitted that a telegram indicating the possibility of a settlement at Winnipeg might be expected within a few hours.

Mass Meeting. In the event of the anticipated wire from Winnipeg not arriving before the mass meeting called for to-morrow at

HARDEN SUPPLIES FURTHER PROOF OF RESPONSIBILITY OF GERMANY FOR THE WAR

Berne, June 20.—Via London, June 21.—(French Wireless).—An official telegram to the Vienna Foreign Office exonerating Serbia from responsibility for the Sarajevo murder has been published by Maximilian Harden in The Berlin Die Zukunft as a part of the mass evidence to show German responsibility for the war.

This telegram, dated July 13, 1914, stated plainly that the Serbian Government had no responsibility for the murder.

The document, Harden says, was cancelled and ten days later the ultimatum to Serbia was presented.

North, and he who had to choose between war and peace had already chosen war. A hundred million individuals were thus deceived.

MR. LLOYD GEORGE SUFFERS WITH SORE THROAT IN PARIS

Paris, June 21.—Mr. Lloyd George is confined to his room with a most severe sore throat. His indisposition prevented his attendance yesterday at the meeting of the Supreme Allied Council. His place at the conference was taken by Rt. Hon. Arthur J. Balfour, Foreign Secretary.

EDUARD DAVID NOW IS ENDEAVORING TO FORM CABINET IN GERMANY

Paris, June 21.—Dispatches received over the American military wire into Germany early this afternoon stated that Hermann Mueller having failed to form a new German Cabinet, Dr. Eduard David, former President of the National Assembly, had been asked to assume the task.

Weimar, June 21.—It looks more and more as if Eduard David would be the successor not only of Philipp Scheidemann, the Chancellor, but of Count von Brockdorff-Rantzau, the German Foreign Minister. His tenure of both offices undoubtedly will be only for a short time, but he is accustomed to that, having held the position of President of the National Assembly for a brief period, being supplanted by Konstantin Fehrenbach.

Francisco Nitti at Work Forming Cabinet in Italy

Rome, June 21.—King Victor Emmanuel has requested Francisco Nitti, former Minister of the Treasury, to form a Cabinet. The Giornale d'Italia announces semi-officially. Former Premier Tittoni will be Foreign Minister, it is added.

COUNCIL CONSIDERS NOTE FROM GERMANS

Teutons Ask If Clemenceau's Note on Reparations is Binding

Paris, June 21.—The Council of Four of the Peace Conference, received a note to-day from the German peace delegation asking if M. Clemenceau's note explaining the reparations clauses of the peace treaty was a binding part of the treaty and having the same force as the treaty itself.

Before receipt of the German note the Council had resumed consideration of the uncompleted portion of the Austrian treaty.

Rantzau's Queries. Berlin, June 20.—Via London, June 21.—(Associated Press).—Count von Brockdorff-Rantzau has sent a note to M. Clemenceau citing twelve instances in which the covering note of the Allies' reply to the Germans on June 16 announced concessions which are not contained in the altered text of the treaty.

Count von Brockdorff-Rantzau asks how far the Allies bind themselves to these concessions and requests a written confirmation that the contents of the covering note and the memorandum on these points form part of the new peace offer. He further points out several instances where, in addition to the hand-written alterations, the present printed copy of the treaty differs from the copy of May 7, and asks to be notified before the expiration of the time limit how far it is intended these changes are to go.

COAL MINERS BACK AT WORK IN FRANCE

Paris, June 21.—The striking coal miners returned to work everywhere in France this morning, owing to the adoption by Parliament of a bill applying the eight-hour day to the coal-mining industry.

LIQUOR IS SEIZED AT SYDNEY, N. S.

Sydney, N. S., June 21.—Seventeen barrels of liquor were seized by Inspector J. B. McCormick at the C. N. R. freight sheds here yesterday. The liquor was consigned to D. A. McDonald and contained in a refrigerator car.

Extremists in U. S. to be Deported in Wholesale Manner

New York, June 21.—Information that the Government has under consideration wholesale deportations of Bolshevik, anarchist, and other radicals in this country was obtained here to-day from what was considered an authoritative Federal source. It was declared that the plan called for using returning troopships to take alien agitators back to their native lands.

EDUARD DAVID NOW IS ENDEAVORING TO FORM CABINET IN GERMANY

Paris, June 21.—Dispatches received over the American military wire into Germany early this afternoon stated that Hermann Mueller having failed to form a new German Cabinet, Dr. Eduard David, former President of the National Assembly, had been asked to assume the task.

Weimar, June 21.—It looks more and more as if Eduard David would be the successor not only of Philipp Scheidemann, the Chancellor, but of Count von Brockdorff-Rantzau, the German Foreign Minister. His tenure of both offices undoubtedly will be only for a short time, but he is accustomed to that, having held the position of President of the National Assembly for a brief period, being supplanted by Konstantin Fehrenbach.

Francisco Nitti at Work Forming Cabinet in Italy

Rome, June 21.—King Victor Emmanuel has requested Francisco Nitti, former Minister of the Treasury, to form a Cabinet. The Giornale d'Italia announces semi-officially. Former Premier Tittoni will be Foreign Minister, it is added.

COUNCIL CONSIDERS NOTE FROM GERMANS

Teutons Ask If Clemenceau's Note on Reparations is Binding

Paris, June 21.—The Council of Four of the Peace Conference, received a note to-day from the German peace delegation asking if M. Clemenceau's note explaining the reparations clauses of the peace treaty was a binding part of the treaty and having the same force as the treaty itself.

Before receipt of the German note the Council had resumed consideration of the uncompleted portion of the Austrian treaty.

Rantzau's Queries. Berlin, June 20.—Via London, June 21.—(Associated Press).—Count von Brockdorff-Rantzau has sent a note to M. Clemenceau citing twelve instances in which the covering note of the Allies' reply to the Germans on June 16 announced concessions which are not contained in the altered text of the treaty.

Count von Brockdorff-Rantzau asks how far the Allies bind themselves to these concessions and requests a written confirmation that the contents of the covering note and the memorandum on these points form part of the new peace offer. He further points out several instances where, in addition to the hand-written alterations, the present printed copy of the treaty differs from the copy of May 7, and asks to be notified before the expiration of the time limit how far it is intended these changes are to go.

COAL MINERS BACK AT WORK IN FRANCE

Paris, June 21.—The striking coal miners returned to work everywhere in France this morning, owing to the adoption by Parliament of a bill applying the eight-hour day to the coal-mining industry.

LIQUOR IS SEIZED AT SYDNEY, N. S.

Sydney, N. S., June 21.—Seventeen barrels of liquor were seized by Inspector J. B. McCormick at the C. N. R. freight sheds here yesterday. The liquor was consigned to D. A. McDonald and contained in a refrigerator car.

GOMPERS AGAIN HEAD OF FEDERATION

Re-elected President of the American Federation of Labor To-day

Atlantic City, N. J., June 21.—Samuel Gompers to-day was re-elected president of the American Federation of Labor, in convention here. Mr. Gompers in a speech said the selection was American labor's answer to its traducers and opponents.

When the delegates arose to their feet to cheer the veteran workmen's leader, James Duncan, of Seattle, the only delegate who voted "No," and Percy Grow, of Los Angeles, and other so-called radical leaders remained seated. The proportion of these, however, was small.

OUTASTA PREPARES FOR BIG CEREMONY

Getting Ready Copies of German Treaty Which Will Be Signed

Paris, June 21.—(Associated Press).—The official copies of the peace treaty to be signed by representatives of Germany and the Allies now are being prepared in the office of Paul Outasta, General Secretary of the Peace Conference, according to Margret Hutin, writing in The Echo de Paris.

Each of the Allied representatives whose names must appear on the document has been asked formally for a specimen of his handwriting and seal.

Denkin's Forces Pursue Bolsheviks in the Volga Region

London, June 21.—A dispatch filed in Ekaterinodar, Southern Russia, on Tuesday last, says that the forces of General Denkin, the anti-Bolshevik leader in Southern Russia, were then advancing rapidly toward the Volga in pursuit of the Soviet troops.

The Denkin forces were within twenty miles of Tsartson, on the Volga south of Saratov.

Fifty thousand Bolsheviks were reported fleeing in panic toward the Volga from the River Don region and had passed Slaviansk, leaving rolling stock behind them.

MINISTER TO VATICAN.

Rome, June 21.—Professor Kowaloko, the first Polish Minister accredited to the Vatican, has arrived in Rome.

AMERICANS NOT TO HAVE WINE AND BEER

Washington, June 21.—A proposed amendment to the prohibition enforcement bill giving the President authority to repeal the war-time prohibition act insofar as it affects the sale of high wines and beer was defeated to-day by the House Judiciary Committee, twelve to five.

RIOT ACT IS READ IN WINNIPEG AND POLICE FIRE ON LARGE MOBS

Great Disorder in Manitoba Capital; One Person Officially Reported Killed and Three Injured; Street Car Burned Before City Hall

Winnipeg, June 21.—During disorders here this afternoon Mayor Gray read the Riot Act. Later constables of the Royal Northwest Mounted Police and mounted militia charged mobs in the streets three times. Missiles were thrown by strikers.

A street car was wrecked by the mob in front of the City Hall and set on fire.

It has been unofficially reported that one person was killed and three injured in the rioting. The casualties occurred when the police fired into the crowd.

Winnipeg, June 21.—An afternoon paper here carries the following extract from The Chicago Tribune of June 19:

"Bolshevism under the management of the 'committee of five' is financially prosperous in Chicago, it was asserted yesterday after the arrest at Winnipeg of R. B. Russell, a Red missionary. Chicago radicals, finding themselves with more money than they needed for local propaganda, sent \$25,000 through Russell and other sources to establish Soviet rule in the Dominion of Canada.

"Philip J. Barry, superintendent of investigation for the Department of Justice, verified the information, stating the committee of radicals in Chicago had been sending money to Canada for several months. The funds were raised at meetings here for the purpose of converting Canada to Bolshevism."

"I am not at liberty to name the contributors or the amounts," said Mr. Barry, "but my agents are working on the case and have detailed information."

"Mr. Barry indicated that although the collecting of funds to be used abroad for Bolshevism might not constitute a federal violation, criminal angles would be unearthed."

"Bolshevik Funds." Winnipeg, June 21.—The Western Labor News, special strike edition No. 21, printed the following to-day: "The evening papers contained an official statement comprising the text of several letters which it is said fell into the hands of the authorities Tuesday morning when the Labor Temple was raided."

"Much is made of the statement said to be found in a letter to R. B. Russell: 'I have just got a shipment of Bolshevik funds for this purpose. Whether the purpose referred to is the formation of the One Big Union is not clear from the letter, but in any case, the phrase 'Bolshevik funds' is taken altogether too seriously. As all workers know, the term Bolshevism has been in common use to signify those identified with the radical wing of the working class movement. Sometimes it was used in jest; frequently it was applied to the members of the Socialist Party of Canada, who claimed to be out-and-outers in the opposition to the Labor Party group, who were charged with being merely bourgeois reformers. An ordinary worker would never imagine from reading the letter that the funds referred to came from the Bolshevist organization."

To Rivals. "So when Mr. Russell is said to have stated that 'We have pretty nearly got control of the Trades and Labor Council, and believe me, we will use it to our advantage,' he refers to the Socialist Party of Canada, which regards the Labor Party as a rival political organization."

SOME OF THE EX-GERMAN WARSHIPS AT SCAPA FLOW SUNK BY GERMAN SAILORS

London, June 21.—Announcement that certain of the interned German warships at Scapa Flow were sunk and abandoned by their crews was made by the Admiralty this afternoon. The German crews have been detained in safe custody.

The German ships sunk, the number of which is not yet known at the Admiralty, had not been manned since their internment. It is believed they were sunk by opening the sea cocks.

A report to the Exchange Telegraph Company, which was cancelled later, said that according to farmers in the vicinity, the German flag was hoisted on the German ships as the crews prepared to sink them.

When the German high seas fleet surrendered last November and was taken to Scapa Flow, it comprised nine battleships, five battlecruisers, seven light cruisers and fifty destroyers. As far as is known, all the ships have remained at Scapa Flow since then.

LIST OF SAILINGS AND SOLDIER PARTIES ARRIVING. Revised to Noon, June 21. The troop train C. P. 781 left Regina, Sask., 2.45 p. m. June 20 with troops for this district. The C. P. special 1541, from the S. S. 'Aquitania,' arrived Moncton, N. B., at 2.30 p. m. June 20, with troops for this district. The C. N. R. special 1542, from the S. S. 'Aquitania,' left Moncton, N. B., at 5.20 p. m. on June 20 with 6 officers and 122 other ranks for Victoria. The S. S. 'Satalia' is due at Montreal on June 27 with 1 officer and 40 other ranks for Victoria.

Firemen Out. Sangoon, June 21.—Railway firemen on the Canadian National lines at Humboldt have been on strike for two days in sympathy with the Winnipeg metal workers. The engineers are still at work and the firing is being done by various officials of the road from the general superintendent down. In this way the trains are kept moving.

At Vancouver. Vancouver, June 21.—The Central Strike Committee, through Messrs. Kavanagh, Cottrell and Smith, informed Mayor Gale this morning during a personal visit they had every reason to believe a strike settlement at a very early date might be expected. They asked for a definite understanding with the City Council as to reinstatement of civic employees automatically "considered as resigned" since June 7.

Bo'shevik Cruiser Oleg Struck Mine Laid by Bolsheviki. London, June 21.—It has been learned that the Bolsheviki cruiser Oleg at last accounts was in a sinking condition. The vessel was not hit by a torpedo from a submarine, but struck a Bolsheviki mine.

VILLA'S PLANS. El Paso, Texas, June 21.—Villa has given instructions to his men to attack none of the small Federal garrisons occupying towns and settlements along the Mexican side of the United States-Mexican border, according to information received here to-day from the field in Mexico.

MARSHALL FOCH HAS HIS ARMIES READY TO MAKE ADVANCE

Paris, June 21.—The Supreme Council yesterday confirmed the plans made by the military authorities for a resumption of the advance into Germany in the event of the failure of the Germans to sign the peace treaty within the allotted time.

Marshal Foch, General Robertson, of the British army, Major-General Bliss, of the United States, and other

military chiefs were before the Council yesterday afternoon and explained the details of the Allied plans. The reports of the fall of the Scheidemann Government had not reached the Council when these plans were discussed.

It is not expected the order for the Allied armies to advance would be given exactly at the time of the expiration of the time limit of the Allies, but it was indicated that there would be little delay, if any, in the manoeuvres.

In listing the new spring colors, there is French blue, Belgian green, but nothing like German yellow.

LEAGUE COVENANT GIVEN ENDORSEMENT

American Federation of Labor Approves Scheme For World Group

Atlantic City, N. J., June 21.—The American Federation of Labor, in annual convention here, at its session yesterday endorsed the League of Nations covenant and the labor provisions it contains, which, according to a cable message from President Wilson, have been weakened, although not materially.

In giving its approval by a vote of 25,750 against 420, the reconstruction convention of the American Federation of Labor made it clear that "nothing in the endorsement can be construed as denying the right of self-determination and freedom to Ireland as recognized by this convention." An amendment containing the Irish provision was adopted unanimously.

The text of the President's cable, in reply to one sent him by Mr. Gompers, asking information about changes reported in press dispatches, follows: "Your message came while I was in Belgium, and reached me too late to make full reply, but as I indicated in an earlier message, while the labor provisions are somewhat weakened, it is the opinion of friends of labor and my own opinion that they are not materially weakened, and that they will constitute a most serviceable magna charta. Will cable labor provisions, but fear it will be too late for the convention."

Mr. Gompers's message to the President said, in part: "Upon my advice, the executive council of the American Federation of Labor has recommended to the Federation, now in convention, the endorsement of the League of Nations, including the labor provisions. Reports published here indicate that the labor provisions have been so changed and weakened as to practically nullify their effectiveness."

KING HONORS AVIATORS.

London, June 21.—It was announced yesterday that King George had created Captain Alcock and Lieut. Brown Knights of the Order of the British Empire as a reward of merit for their trans-Atlantic aeroplane flight.

DIVORCE COURTS IN THE PROVINCES

Sections of Canada Now Without Courts May Have Them

Ottawa, June 21.—A strong probability that divorce courts will be established in Canada's provinces yesterday, with the approval of Sir Robert Borden, W. F. Nickle's bill relative to divorce was given second reading.

This stage was not reached without a fight. A. E. Fripp, of Ottawa, seconded by Mr. McIsaac, moved a six months' moratorium on the bill. Mr. Fripp's amendment was voted down by a division of 55 to 43 against.

The measure was considered in committee, and it is expected that it will get a third reading this session. There is some doubt expressed as to the bill securing the approval of the Senate, which now deals with divorce cases, except for the Maritime Provinces and British Columbia.

The object aimed at by Mr. Nickle's bill is to establish divorce courts in provinces where they do not now exist by giving jurisdiction in such matters to the superior courts, and by giving jurisdiction to the Exchequer Court for divorce matters for the Dominion. The latter proposal, he explained, would free the Roman Catholic judges of Quebec from the necessity of hearing divorce cases.

In the division yesterday, the Roman Catholic members of the House voted against the bill, which received the support of D. D. McKenzie, Opposition Leader, as well as the Prime Minister.

Arguments advanced in favor of the bill included the contention that while there should be no change in the grounds for which divorces are granted, divorce should be made possible for the poor as well as the rich.

Technical Education. During consideration of the technical education bill at the evening session, opposition members expressed the view that it might be better to the proposed grants for technical education directly to the provinces, as there was a possibility of interfering with provincial rights.

Hon. J. A. Calder pointed out that an objection in regard to the matter had been arrived at with the provinces at the conference with the Provincial Premiers.

Bankruptcy Bill. Ottawa, June 21.—The Senate yesterday gave third reading to the bankruptcy bill of the Government and sent it to the Commons for concurrence in the amendments made to it.

A bill providing for soldier settlement, designated sections of Dominion forest reserves was referred to the Senate Committee on Agriculture and Forestry, with instructions to take the evidence of Government experts upon the character of the lands and their relation to the forest reserves.

PERSHING TO VISIT ENGLAND.

London, June 21.—General Pershing, the American Commander-in-Chief, will come to London next Tuesday for an unofficial visit, contingent upon the Germans signing the peace treaty. While he is in England, he will go to Oxford and receive the degree of Doctor of Civil Law.

CAVERLY SENTENCED.

Vancouver, June 21.—Earl Ray Caverly, defaulting clerk of the Canadian Bank of Commerce, who was arrested at Louisville, Ky., "playing the races," was sentenced yesterday afternoon by Judge Cayley to twenty-three months' imprisonment. Caverly pleaded guilty to the theft of \$4,000 worth of Victory Bonds, which was the amount traced as having been actually cashed by him, but he was suspected of having stolen in all \$14,000.

It Helps Others Will Help Me

With This Belief Many Thousands Have Learned the Exceptional Value of Dr. Chase's Nerve Food

You hear people talking about Dr. Chase's Nerve Food. You read about it in the newspapers. You wonder if it would benefit you. And while you are hesitating others are using it to great advantage.

This treatment for the restoration of the blood and nerves is so different to most medicines that you may not realize why you can be so certain of benefit from its use.

In order to maintain the vigor of the nervous system an abundance of pure, rich blood is necessary. When the nervous system becomes exhausted and you are easily tired and suffer from headaches, sleeplessness, irritability or indigestion, it is because the blood is failing to supply proper nutrition to the nervous system.

By forming new, rich blood, Dr. Chase's Nerve Food naturally and certainly restores the vigor of the nerves. Since it works hand-in-hand with nature, it cannot fail to be of benefit, and there is no reason why it will not help you just as it has the writer of this letter.

Mrs. Stephen G. Thwaites, Box 205, Jordan, Ont., writes: "For about a year I was troubled with nervousness, and took doctors' medicine, but it did not seem to relieve me. I could not sleep nor content myself with anything. I had severe headaches, was tired all the time, and afraid to stay alone. I also tried several nerve medicines until almost discouraged. At last I discovered Dr. Chase's Nerve Food, and found relief in this. I had only taken one box when I began to feel better. I continued using this treatment until my nerves were restored to perfect health. I think the Nerve Food splendid for nervous troubles of any kind, and cannot recommend it too highly."

(Rev. S. F. Coffman, Vineland, Ont., states: "This is to certify that I know Mps. Thwaites, and her statements are correct.")

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers, or Edmanston, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Mid-June Declares the Modes for the Frocks of Summer

And the assortments assembled here give these modes first and complete presentation. Simple and youthful in line, exquisite in color and delightful in fabric, are the latest arrivals. And each one has some individualizing touch that will be appreciated by those who care to witness our display of New Dresses for summer. We submit for your approval:

Dresses of Flowered Georgette in a bewildering display of handsome colorings. These are the very latest New York styles and the many clever designs shown afford an excellent assortment to choose from.

Satin Dresses in black, navy and Belgian blue, in many beautiful designs and a variety of novel trimmings. Beading and embroidery are prominent features on some of the models.

Serge Dresses in colors of navy and fawn. Vest effects are shown. Some have square yokes, and braiding and metallic buttons produce many new and desirable style features.

Summer Dresses of Voile, in beautiful flowered, figured and check designs and a host of delightful colorings.

NATIONAL INDUSTRIAL COUNCIL IN BRITAIN

Outcome of Deliberations of the National Industrial Conference

London, June 21.—(Reuter's).—The joint committee of the National Industrial Conference, having agreed with the Minister of Labor upon the draft outlines of the bills to be presented to Parliament to establish a minimum wage and a maximum forty-eight-hour week, will now proceed to set up the National Industrial Council recommended by the Conference. The full Council will consist of 400 members, representing the employers' organizations and the trades unions respectively. Each side will determine its own method of election and allocation of representatives.

The greatest satisfaction is expressed in industrial circles over the agreement. It is felt that it will inevitably lead to the formation of a recognized centre for the settlement of all trades disputes. It is hoped that when the bills receive the sanction of Parliament the Council will be already in existence and ready to undertake the administration of this reform.

It was early last February that the Government arranged for the National Industrial Conference to consider and report on the causes and remedies of labor unrest.

OVER SIXTY LOST LIVES IN FIRE IN PORTO RICO THEATRE

San Juan, Porto Rico, June 21.—Sixty bodies now have been recovered from the ruins of a motion picture theatre at Mayaguez, destroyed by fire on Thursday night. The injured number 150, many of whom may die.

Women and children were trampled or crushed to death in the panic that followed the alarm of fire. The theatre building was destroyed within fifteen minutes.

LENINE NOW IS CALLED ANTICHRIST

Paris, June 21.—The Soviet Government in Russia is combating a religious movement, mystic in character, which has spread through the provinces of Moscow, Novgorod and Vladimir.

One of the features of the movement, which is said to be strong among the peasants, according to advices received here, is that Premier Lenin is called the Antichrist foretold in the Scriptures.

The Bolsheviks, it is stated, are opposing the movement by means of an active propaganda.

MACHINE GUNNERS RETURN.

Vancouver, June 21.—A number of Vancouver members of the 4th Canadian Machine Gun Battalion, the nucleus of which was the machine gun section of the 72nd Battalion of Vancouver, arrived in Vancouver yesterday as civilians, having been discharged at Toronto. The battalion was commanded by Major L. F. Pearce, D.S.O., M.C., who left Vancouver with the rank of Lieutenant as commander of the machine gun section of the 72nd Battalion.

In all these conditions of ill health—

Every woman who is Weak, Anaemic, Nervous, or Run-Down needs

A combination of Extract of Beef, Extract of Malt, Iron and Manganese, Glycogen, Phosphates of Calcium, Potassium and Sodium with a specially selected wine. A Tonic, Restorative, Blood-builder and Nervine. Prescribed by the Medical profession for Anaemia, Debility, Sleeplessness, Brain Fog, Nervousness, Lassitude, Fatigue, La Grippe, Maternity-weakness and Convalescence from any illness.

THOUSANDS of women in Canada to-day are suffering from Weakness, Anaemia, Nervousness, and are in a run-down condition. Some are perhaps bravely bearing the strain of responsibility put upon them—others have so far lost the buoyancy of good health and spirits that they have almost forgotten the joy of real good health. Others are not aware of how different they would be if they could really get well.

All are suffering needlessly, and if you who are weak, anaemic, nervous and run down could realize what a short course of Wingarnis would mean to you—you would not continue to suffer needlessly. You would get a bottle of Wingarnis at once, and, from to-day, begin to derive the new

health and new life that Wingarnis promotes. Remember that your health is your most valuable possession.

Wingarnis is a tonic, a restorative, a blood-builder and a nerve food—all in one. Therefore it promotes new strength, new blood, new nerve force and new vitality. That is why over 10,000 Doctors recommend Wingarnis. Wingarnis has been famous in Europe for more than a third of a century. Thousands have testified that it has restored them to health and strength. Don't confuse it with the many inferior preparations of apparently similar nature. Accept no substitutes. Buy Wingarnis itself. Don't let the hundred-and-one home worries make you forget to buy yourself a bottle of Wingarnis to-day.

Ask your Doctor. Get it at your Druggist's.

In two sizes: \$1.00 and (extra large bottle) \$1.75

ADMITTED RECEIPT OF BOLSHEVİK FUNDS

Man Wrote to One of the Winnipeg Strike Leaders

STATEMENT ISSUED BY LABOR MINISTER

Winnipeg, June 21.—Evidence that Winnipeg sympathetic strike was brought about by men whose ultimate object was the establishment of Bolshevism and Soviet rule in Canada is contained in an official statement given out yesterday afternoon by Senator C. D. Robertson, Minister of Labor. The document comprises the text of several letters which fell into the hands of the authorities Tuesday morning when the Labor Temple was raided. One letter specifically stated: "I have just received a shipment of Bolshevik funds for the furtherance of the 'One Big Union Idea.' This letter came to R. B. Russell, one of the accused strike leaders, who replied congratulating the writer on his efforts.

Another letter indicates that Bolshevists desired and partly achieved control of the Trades and Labor Council in Winnipeg, and intimating that when control was fully achieved, "we will use it to our advantage."

Following is the text of the statement handed out by Senator Robertson: "That the thousands of well-intentioned, misinformed and misled working men now on strike in Winnipeg, together with others concerned, may be fully informed, it is proposed that authentic information concerning the cause of the sympathetic strike should be given.

"Among the incriminating documents procured at the Labor Temple in Winnipeg, Monday night last, was a letter addressed to R. B. Russell, dated March 24, which reads in part as follows:

"I have heard from Calgary that you have the convention written up in the paper which you are issuing for the railroad workers. I am wanting to get some of these papers for distribution among the railroad men in this city, and if you have any on hand send them to me at once and enclose the bill. I do not know how many will be needed in the city; you will have more of an idea as to how many railroad men there are here than I have.

Bolshevik Funds. "I have been asked by some of the railroad men here if it is possible to bring you West to address a meeting of the railroad organizations. If you can do this let me know; the international committee will stand all expenses. I have just got in a shipment of Bolshevik funds for this purpose. We are getting out a One Big Union bulletin—it will be off the press in a few days, and I will send you a few. Let me know if you will have anything more out on the O. B. U. and the conference, so that I will be able to get in an order for the provincial committee. If you can write an article for our bulletin to the railway men it will be a great help to us, because there is really a lot of work to be done among them."

Russell's Reply. "To this communication Mr. Russell sent the following reply on March 31: "Your letter of interest, dated March 24, to hand, and in reply let me congratulate you on your activity and success up to date. "I note your remarks re paper containing report of convention—the paper you refer to is The Western Labor News—they have made arrangements to publish verbatim report of convention. I have also arranged with the Central Committee to have an extra 20,000 copies printed and distributed to the three Western provinces, and will mail your bundle next Friday at the very latest. "The paper I have goes to every railwayman and contains all kinds of matter re the O. B. U., so will not cost you anything, as we issue 16,000 per month and each man gets a copy free. "I note the substantial financial aid you are receiving, and no doubt it will all be needed to carry on our propaganda. The eastern end of the country is such that we should put in a lot of work. "I will be pleased to write an article for your Bulletin, and will particularly address my remarks to the railroad man. Will send same on at an early date. "Yours for the change. (Signed) R. B. Russell."

Given to Strikers. "At a conference yesterday morning, attended by Commissioner Perry, of the R. N. W. M. P., J. A. Anderson, K.C., Mayor Gray and the Minister of Labor, the above information was given to a delegation of five members from the Strike Committee, who had previously denied any knowledge of the One Big Union movement in connection with the sympathetic strike. "Inasmuch as 'Bolshevik funds' were being used to distribute literature referring to the One Big Union and the Calgary convention, and that the literature was being printed by The Western Labor News at Winnipeg, which paper is published by the Strike Committee at the Winnipeg Labor Temple, as indicated upon the paper itself, it should not be difficult to understand the connection between the motive behind the Winnipeg strike and Bolshevism. It is undoubtedly true that most of the members of the Strike Committee and a very large majority of the working men on strike have been misled, and have been used as pawns by those directly behind the One Big Union movement, which is being promoted with revolutionary intent. "To 'A Comrade.'"

"For the purpose of removing any doubt as to the element in control of the Trades and Labor Council, the following extract from a letter addressed by Mr. Russell to 'A Comrade' on January 29, 1919, may be noted: "Following my night letter regarding the Winnipeg situation I will give you an outline of the happenings. At the last Trades and Labor Council meeting we had a great victory, and killed the labor party for sure. We had another mass meeting called for last Sunday to discuss the causes of

the German revolution, under the auspices of the party.

"Your letter, with due stamps and charter application, received; also we received under separate cover copies of 'Soviet at Work' and bill for M.P. indebtedness which I will take up and remit cheque to cover same in a day or two.

"In which they realize they have pretty nearly got control of the Trades and Labor Council, and believe me, when we get it, we will use it to our advantage. . . .

Dark Places. "I see the Duke of Devonshire reported in last night's paper as saying that 'Bolshevism requires dark and hidden places in which to flourish and that if taken in time and dealt with in the proper manner it can be outrooted.' If this statement is correct the action of the authorities in attempting to drive us to dark and hidden corners is in our best interests. . . .

"If you send down 500 copies of the 'Soviet at Work,' we will get them out amongst the soldiers and see if it helps. . . .

"With best wishes to yourself and comrades of the D.S.C. "Yours for socialism. "P.S.—Good reports from Toronto and Montreal—will send them later."

CANADIAN SOLDIERS AT EPSOM CHARGED WITH MANSLAUGHTER

London, June 21.—(Reuter's)—Eight Canadian soldiers were charged at Bow Street Police Court with manslaughter as the result of the death of Police Sergeant Greene of Epsom. The names of the soldiers charged follow: Allen Mykester, 3rd Reserve Battalion. Frank Harold Wilkie, 102nd Battalion. Herbert Tait, 11th Battalion. David Yerex, Forestry Corps. James Conner, Canadian Highlanders.

Gervais Borrier and Alphonse Masse, of the Canadian Army Medical Corps. The name of the eighth soldier has not yet been received. On the application of the chief constable, the magistrates of Epsom have applied for a recession of the order closing the public houses issued in consequence of the outbreak Tuesday. Armed Canadian soldiers are picketing the streets of Epsom, and 500 troops have been drafted into the town. The War Office, in reply to a communication from the chairman of the urban council, states that the matter is in the hands of the Field-Marshal commanding the forces in Great Britain.

All Quiet Now. "It is now reported that nine Canadians, some with bandages, have been arrested at Woodcote Camp in connection with the Epsom riots and have been brought to London. Also that 500 troops have been sent to Epsom, where all is now quiet. "The Canadian Red Cross has voted \$1,000 for the family of the police sergeant who was killed. "The Times, while making allowances for the misunderstanding on repatriation, which it says ought to be explained, says the report is urgent that the men are convalescents whom the Canadian Government has refused to repatriate until their ill is cured."

"THE FASHION CENTRE"

Bestmore Mattresses, Steel Beds and Springs in Stock at Lowest Prices. Made in B.C. Patronize Home Industry.

VICTORY BONDS TAKEN IN PAYMENT OF PURCHASE

PROPOSED WORLD CHURCH CONFERENCE

Halifax, June 21.—Among the passengers on the Aquitania for New York were Right Rev. C. H. Anderson, Bishop of Chicago, Right Rev. Boyd Vincent, Bishop of Southern Ohio, who, with the Bishop of Pond du Lac, Wis., and the Rev. Dr. S. Parsons, of San Francisco, and Dr. Rogers, of Wisconsin, made up the delegation which visited Europe and the Near East in behalf of the proposed world conference for a discussion of the points separating the various churches of Christendom. The delegation, stated Bishop Anderson, had visited all the churches of the East, including those of the Balkans, and had secured their co-operation in the proposed conference. It also had visited Norway and Sweden and had found the Scandinavian church very sympathetic to the movement and ready to take part in the conference. It had been graciously received by the Pope on its visit to Rome although His Holiness could not see his way to appoint representatives to the conference.

U. S. TROOPS READY TO CROSS BORDER

Will Move Into Mexico If Villa Attacks American Interests

Washington, June 21.—Recent developments along the southern border and within Mexico itself, it was learned officially to-day, have brought a radical change in the attitude of this Government toward Mexico. It can be stated on positive authority that "watchful waiting" has been discarded for "watchful preparedness."

The War Department has perfected plans to throw a punitive expedition of adequate strength across the Rio Grande the moment official word is received of reprisals on the part of Villa for the Juarez incident or in case of other contingencies tending to bring the Mexican situation again to a stage approaching the crisis of last Sunday. Military observers here place little credence in the reports that Villa has abandoned his offensive to the north. Although three Federal generals now are operating against Villa in Northern Mexico, confidential reports to the War Department are not optimistic regarding the success of the Carranzista campaign there, while the withdrawal of badly-needed troops from the south, it is expected, will be followed by fresh incursions of the Felicistas, already at the very gates of the capital.

Home-made Bread Grows Strong, Healthy Children

THE "electric dynamo" of a grain of wheat; the energy supply of the human body—is gluten. Gluten is what counts in the flour that goes to make the bread your children eat. For the higher the percentage, the more nourishing it becomes. Gluten explains that "something different" in home-baked bread.

Scientifically tested, baked in our laboratory ovens, ROYAL STANDARD FLOUR is every day proven the richest in gluten. Compared with baker's bread, it is more nourishing and body-building, though appearance may seem alike. For the added substance and real "homey" flavor; for your children's welfare, feed them home-made bread—baked from ROYAL STANDARD FLOUR. Sold by all grocers.

A BEDTIME STORY

UNCLE WIGGILY AND THE STRAWBERRIES
Copyright, 1918, by McClure Newspaper Syndicate (By Howard R. Garis.)

"Do you like strawberry shortcake, Uncle Wiggily?" asked Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper of the Bunny, rabbit gentleman, one morning.
"I am very, very fond of strawberry shortcake," answered Mr. Longears. "In fact, I could eat a slice right now. Please bring it in, Nurse Jane."
"Oh, I haven't any now, laughed the muskrat lady. "I was going to say that if you wanted some, and would go off in the woods in your auto and bring me back some strawberries, I'd make the cake."
"I'll do it!" cried Uncle Wiggily. "I was very unlucky in finding blackberries, red raspberries, and, with the help of Johnnie and Billy Bushtail, I found the huckleberries. Now I'll try to find some strawberries. I'll go look for them!"
No sooner said than done. Sprinkling a little pepper on the Bologna sausage tires of his auto and taking Uncle Wiggily started off. Over the fields and through the woods he rode, looking on all sides for some strawberries so Nurse Jane could make a shortcake.
"And I hope she doesn't make it so short that there will be none left

Beautiful Women of Society, during the past seventy years have relied upon it for their distinguished appearance. The soft, refined, pearly white complexion it renders instantly, is always the source of flattering comment.
Gouraud's Oriental Cream

Social Tea

G. W. Bowen, of Nanaimo, is staying at the Empress Hotel.

Dr. Edward P. Clark and family, of Pittsburgh, are at the Empress Hotel.

Dr. and Mrs. Chatham, and Miss M. E. Chatham, of Edmonton, are registered at the Empress Hotel.

Miss Louise Durand, of this city, is visiting in Vancouver, the guest of Miss Joan Fraser, Hudson Avenue, for a few days.

Mrs. James D. Hoge, of Seattle, with a party of lady friends, has arrived here to make an automobile tour to Cameron Lake and Albern.

Mrs. R. H. Messer and her daughter, Ellen, arrived in the city yesterday from Seattle to meet the former's brother, William D. Connor and his son.

Mrs. Mary Lindner announces the engagement of her daughter, Marjorie, to John Edgar Hamilton, son of Mr. and Mrs. J. E. Hamilton, of Strabane, Ont., the marriage to take place shortly.

Mrs. Douglas Wright has returned to Vancouver after visiting her daughter, Miss Isabel Monteith, in this city. Mrs. Wright has joined her husband at Coquitlam, where they will reside in future.

W. R. Dunlop, of Vancouver, arrived in the city to-day from the mainland and will sail on the outbound boat for San Francisco. While in California he will visit friends in Los Angeles and San Diego.

Over one hundred service and ex-service men and their lady friends participated in the enjoyable military five hundred and dance held at the K. of C. Army Hut, Fort Street, last night. Twenty-five tables were set, and a dozen of the winners being Mrs. R. Wright, Miss Sehl and Sergt. McNeill. At the conclusion of the game the floor was cleared for dancing, the music being furnished by Miss Mabel Small, J. Tarrling and Sergt. J. Maler, an American soldier visiting at the Hut. On Friday evening next a concert will be given under the direction of Mrs. Chas. Wilson.

Complimentary to Miss Machin, whose marriage is to take place next week, a merry surprise party was held last night at the home of Mrs. E. Flaherty, the guests including about a dozen of the bride-elect's former colleagues at Gordon's, Ltd., Yates Street. The reception-room was charmingly arranged with pink sweet peas, white marguerites and ferns. The chief feature of the evening was the presentation to Miss Machin of a case of handsome Community silver knives and forks, the gift of her fellow-guests. Mrs. Flaherty, in making the presentation, happily expressed the donors' united wishes for the bride-elect's future happiness. Music and games helped the evening pass all too quickly, delicious refreshments being served by the hostess before the departure of the merry party.

The Ladies' Guild, of St. John's Church, held a very successful and enjoyable garden party and picnic yesterday at the home of Mrs. B. C. Meas, 1162 Fort Street, the varied features attracting a large number of visitors. Mrs. B. C. Richards, the president, had charge of the fancy-work stall, while Mrs. E. H. Griffiths sold delectable home-made candy, and Mrs. George Jay and Mrs. R. H. Walker conducted the home cooking stall. Children's wear found ready sale at the hands of Mrs. E. Pearson and her assistants, and Miss Wilson sold summer flowers. A parcel post office under the direction of Mrs. Fulton and Mrs. Townsley proved a popular attraction. Delicious afternoon tea was served by Mrs. Hurst and Miss Deany and a lady of assistants, and Miss Neil and Miss Richardson sold ice cream. As a result of the enjoyable affair the funds of the Guild will be augmented by a substantial sum.

Victoria friends of the bride-elect will be interested in the following announcement from The Seattle Times: "Miss Marjorie Whiteaker, daughter of Mr. and Mrs. C. H. Whiteaker, whose marriage to Mr. Frank Day will take place June 24, has arranged her bridal party, which will consist of Miss Susan Gilliland, of Victoria, B.C., as maid of honor; Miss Mildred Nelson

almost as fast, chasing Uncle Wiggily. "Oh, if I can only get to the strawberry field I may be safe," thought the bunny. He steered his auto that way, and, just as the lady bug had said many of the animal children were in the field helping pick Uncle Butter's berries.

"Oh, Uncle Butter!" cried the bunny as he rode into the strawberry patch, with the Boozup chasing after him, though now some distance behind. "What shall I do? Where shall I hide?"

"Jump out of your machine and hop up to that shed," said the goat gentleman. "The shed is a big pile of strawberries on the floor, ready to be put into boxes. You hide down under the red strawberries, cover yourself with them, and leave just the tip of your nose sticking out so you may breathe."

"I'll do it!" cried Uncle Wiggily, and he had hardly hidden under a pile of berries before the Boozup came to the shed. "I saw him come in here, but I don't see him now. All I see is a pile of strawberries. Where's Uncle Wiggily?"

"I don't see him myself," spoke Uncle Butter, "I like and unpretentious. The Boozup looked sharply at the pile of strawberries, but he couldn't see Uncle Wiggily. "Cause why? 'Cause only the tip of the rabbit gentleman's nose was sticking out, and the nose was near the color of a strawberry that the Boozup never noticed it."

Of course Uncle Wiggily's nose winkled the least little bit, but the Boozup never suspected that.

"Well, that rabbit fooled me this time," growled the Boozup as he hopped away. "But I'll get him next week!"

Then Uncle Wiggily crawled out from under the strawberries, and Uncle Butter gave him a pat full to take home to Nurse Jane who made a fine shortcake. So everything came out all right, and if the rubber doll doesn't take the lamp shade for a parasol when she goes swimming in the bath tub, I'll tell you next about Uncle Wiggily and the cherries.

TO CO-OPERATE WITH CONSUMERS' LEAGUE

Women's Independent Political Association Heard League Speakers Last Night

After listening to a number of speakers representative of the Consumers' League on matters pertaining to the high cost of living, the Women's Independent Political Association went on record last night in support of the measures taken by the League to reduce the cost of foodstuffs. The Association also appointed a committee to co-operate with the Consumers' League with a view to investigating local food conditions and the possibilities of obtaining proper cold storage facilities.

A resume of the steps taken by the Consumers' League in the matter of increased production was presented by members of a delegation from that body. Other gentlemen in attendance at the meeting contributed their observations and experiences, the general tenor of the speeches favoring a closer co-operation between the producer and the consumer, and the establishment of cold storage plants in the municipality.

A letter from the Farmers' Co-operative Association gave details of the scheme under which a number of the farmers of the country adjacent to Victoria plan to market their produce in the city. In response to a communication from the Mayor enclosing a request for particulars of local conditions from the Dominion Committee appointed to investigate the cost of living, a committee of the Association was appointed to look into the matter and supply data.

The Victoria Companies of Girl Guides will hold their postponed rally on Saturday, June 28 at 3 p.m., in the Pemberton Woods. Strong detachments are expected from the 2nd Vancouver Company under Miss James, the Burnaby Company under Miss Leigh and from the Gordon Head Company.

The display of Guides at work, which will take place from three to four, promise to show many interesting sides of the Guide training, and will demonstrate gymnastics, ambulance work, toy-making, pioneer work, and many other useful crafts. In the exhibition of completed work, Guide skill will be displayed in all manner of arts and crafts from ceramic work to gardening.

Award of Badges. At 4 o'clock Lady Bernard will take the salute of all the Guides and make presentations of special awards and War Service Badges. After the rally competitions between the companies will take place. E. W. Barclay has consented to act as starter for the races. Mrs. R. B. McMicking has agreed to judge the cookery race and Mrs. Charles Wilson, Lady Superintendent of the St. John's Ambulance Brigade will judge the ambulance competition. The program of the day is expected to be very keen, as this is the first time in their history that the Island and Mainland Guides have met.

I.O.D.E. Chapters Assist. The Municipal Chapter, the Lady Douglas, the Florence Nightingale, and the Agnes Deans Cameron Chapter, I.O.D.E., have made generous donations of prizes for the competitions. The local Guides and their friends are doing their best to provide their guests with a memorable visit. They will be welcomed on arrival on Saturday morning by representatives of the various companies, and on Saturday evening, Mrs. Griffiths, the Commissioner is holding a reception for the officers when aspects of the work and future schemes will be discussed.

On Sunday, by kind permission of Dean Quilton, all companies will attend morning service at the Cathedral, after which the visitors will be entertained to lunch by the Victoria Guides in the City Headquarters, 513 Mason Street. The Burnaby and Vancouver Companies will return to Vancouver on the Sunday afternoon boat.

GIRL GUIDES' RALLY ON SATURDAY NEXT

Attractive Programme Arranged; Companies Coming From Mainland

At 4 o'clock Lady Bernard will take the salute of all the Guides and make presentations of special awards and War Service Badges. After the rally competitions between the companies will take place. E. W. Barclay has consented to act as starter for the races. Mrs. R. B. McMicking has agreed to judge the cookery race and Mrs. Charles Wilson, Lady Superintendent of the St. John's Ambulance Brigade will judge the ambulance competition. The program of the day is expected to be very keen, as this is the first time in their history that the Island and Mainland Guides have met.

LOCAL W.C.T.U. WIRES DEMAND FOR REFORM OR ABOLITION OF SENATE

The Victoria W. C. T. U. has wired the following telegram of protest to Sir Robert Borden:

"The General Board of the Women's Christian Temperance Union of Victoria desires to express their utter disapproval and indignation at the action of the Senate in defeating the will of the people of Canada by voting against prohibition until one year after peace is signed."

The Board calls upon the House to reform or abolish the Senate in order that the people's chosen representative's action may not be overthrown."

William Jessop, whose marvelous work in charge of the Y. M. C. A. in Egypt has attracted worldwide attention, is a Canadian.

PROVINCE WILL GET EIGHTEEN MACHINES

Part of Gift From British Government; People Will Marvel at New Types

British Columbia will in all probability receive eighteen aeroplanes as her share of the contribution made by the British Government to Canada, according to well informed sources in this city. The Old Country is sending over 107 machines of various types and these are to be allotted to the various provinces. British Columbia and Ontario have taken the most active steps in the establishment of commercial flying and will receive the fullest consideration from the federal authorities.

The question of distributing the eighteen planes in this province will be a delicate matter as no doubt every town will want a machine. Victoria and Vancouver at the present time are the only cities which have taken up flying, but no doubt New Westminster, Nanaimo, Prince Rupert and interior cities will want to share in the distribution.

Victorians have stood gasping at the Pathfinder whirled through the air at 75 miles an hour and looped-the-loop, rolled and dived. But they will probably suffer from severe attacks of neurasthenia if a couple of Camel scouts and Snipe ever get into action over this city. The Camel, with an accredited speed of 130 miles an hour, and the Snip, the latest production in war aeroplane construction capable of making 150 miles an hour, are the marvels of the air. Their acrobatics startled the western front and any pilot who ever had a Camel would like to have seen the Hun that could have sat on his tail.

It will be a good thing to get some of these famous machines here in order to show the people the actual state to which aviation has developed in other parts. The Pathfinder, while a safe and fairly reliable old bus, is five years behind the time.

The quota for Canada contains two Handley-Page machines, one of which is a "super" and with which the transcontinental flight will be attempted. There are a number of Bristol fighters, a fine type of machine which made a splendid record in the war.

ENGLAND'S GREATEST AEROPLANE CRASHES

Mammoth Triplane Fell On Its Nose When Taking Off on Its Trial Flight

Details of the lamentable accident which attended the initial flight of the Tarrant triplane and resulted in the death of one of the pilots, Capt. P. T. Rawlings, D.F.C., have just been received here.

The accident resulted in wrecking the machine, which was the largest in existence, and had many remarkable features. It was designed by W. E. Tarrant, a building contractor of Weybridge, assisted by Captain Rawlings, who had taken up an appointment as general manager of the aeroplane department. The design was submitted to the Government, and the possibilities of the machine as a long-distance bomber were recognized. This was while the war was in progress, and it was decided to build one in the Royal Aircraft Establishment at Farnborough under Mr. Tarrant's direction. The vast proportions of the machine necessitated the use of the largest balloon shed for its building. It had not been completed when the Armistice stopped further Government work on it. Somewhat altered in design to permit of its use for commercial and other purposes, it has since been completed, and its first trial flight was arranged. A large number of experts were present to witness the trial.

The massive machine, which, when fully loaded, weighs 22 tons and stands 75 feet high, with a wing span of 140 feet, was brought out on to the aerodrome at daybreak, and the necessary tuning of the engines was completed. These engines, six in number, each of 500 horse-power, are arranged in novel fashion. On either side of the cigar-shaped fuselage, between the lower and middle planes, were placed two engines one driving a propeller and one a tractor screw. Captain Dunn, as pilot, and Captain Rawlings, as assistant, occupied the pilot's seats in the fore-front of the fuselage.

When all was ready the four lower engines were set going, and the machine was taxied over the common in a mile-wide circle. It seemed to travel quite satisfactorily in spite of its enormous weight and turned with apparent ease. So satisfied were the pilots with the machine's behaviour that the run was continued, and an attempt was made to rise by bringing the two upper engines into action.

At this time the tail was well off the ground, although the machine itself was still running on its landing wheels, with an occasional lift; but no sooner were the upper engines brought into play than the machine pitched bodily forward and almost buried its front and main parts in the ground, smashing and grinding its way six or seven feet into the soil. The first-aid motor ambulance and fire fighting apparatus, kept in readiness at the factory, were on the spot within a few seconds of the accident, and the crew were quickly rescued from the wreck. All were more or less injured, the two pilots very seriously. Captain Rawlings died an hour after reaching hospital.

"Are you one of the striking miners?" asked the woman at the door. "Yes, mum," he replied. "What they call a plucker I struck thirty years ago, and I've never give in yet."

AUSTRALIA DEVELOPS COMMERCIAL FLYING

Commonwealth Carrying Out Aggressive Plans; Will Maintain Many Lines

Sydney, N. S. W., June 21.—Vigorous preparations for the establishment of aeroplane services in Australia continue, and there is no doubt that regular lines will be in operation by the middle of 1920. At the present moment, two definite projects are under way.

The first, called Aerial Services, Limited, is concerned with a scheme for linking up Australia with the air services of the rest of the world. A company has been formed and registered for this purpose, and it has an expedition now out in the interior of Australia seeking the best aerial route and landing stations between Sydney and Darwin, from which point it is intended to reach Asia through the Indies and the Malay Peninsula. This expedition is travelling mostly on powerful motor cycles, is at present near the border between Queensland and the Northern Territory, somewhere west of Cloncurry. It has met many difficulties but has steadily fought its way into the northwest.

The other company, known as Aerial Transport, Limited, has just been registered. It proposes to establish aerodromes in Sydney, Melbourne, Brisbane, Perth, Adelaide, Launceston and Hobart, and the average passenger fare between the capital cities is to be about £6 each way. It is intended to run aeroplanes between Melbourne and Sydney in 1-2 hours, Melbourne and Adelaide in 1-2 hours, between Melbourne and Hobart (landing at King's Island and Launceston) in 1-2 hours. Later on there will be a daily service between Sydney and Brisbane in 6 1-2 hours, Sydney and Adelaide (landing at Hay) in 11 hours, Melbourne and Broken Hill (landing at Hay) in 7 hours, and from Adelaide to Perth (landing at Kalgoorlie) in 18 hours. Some time after that, the larger country towns will be connected with the cities by aeroplanes.

The machines to be used in this latter scheme will have a lifting capacity of 3 1-4 tons, and each will carry 30 passengers and very moderate luggage, or 12 passengers and two tons of goods. It is estimated that freight could be carried at eightpence per pound. It is thought that mails could be carried at a halfpenny per ounce.

Two big delivery aeroplanes are to be put into commission forthwith in Sydney as pleasure craft. Persons are expected to pay a considerable sum for the novelty of flying.

LADY PAYS BIG PRICE TO FLY WITH HAWKER

London, June 21.—A week-end Hawker festival was arranged at the Hendon aerodrome, to give Londoners a chance of seeing the plucky little pilot working at his chosen trade. It began rather unfortunately on Saturday afternoon, with an accident to a Blackburn Kangaroo, in which Captain Robertson, the pilot, was badly injured. This happened to some extent, a Canadian soldier named Cox, had his thigh broken, while the other three passengers were cut and bruised and the machine was practically wrecked.

This happened to some extent before Hawker came, and by the time he arrived there was only the canvas-draped derelict on the far side of the aerodrome to be the reminder of the fact that flying has its unucky chances.

Hawker arrived, with Mr. Hawker as his passenger, in a Sopwith Gou triplane, escorted by a host of other machines, which whirled up to meet him. After a run round the ground in Mr. Graham-White's car, so that the crowds of people might have a chance to see and cheer their favorite, there was an auction of passenger flights.

The first trip was secured by Miss Daisy King, of Leeds, for sixty guineas, and other passengers paid as much as forty and thirty guineas, the latter sum going to the Flying Services Fund.

Mr. Hawker was kept busy for a long time, for in addition to his own trips he gave little joy-rides to several of his friends. And, of course, whenever he was on the ground there were importunate boys and girls with ready album ready, and every other member of the crowd seemed to have brought a camera.

If Breath Comes Hard If Nose is Plugged You Have Catarrh

Perhaps you haven't heard of the new remedy—it's so pleasant to use—it fills the nose, throat and lungs with a healing balsamic vapor like the air of the pine woods. It's really a wonderful remedy—utilizes that marvelous antiseptic only found in the Blue Gum tree of Australia.

The name of this grand specific is Catarrhose, and you can't find its equal on earth for coughs, colds, catarrh or throat trouble. You see it's no longer necessary to drug the stomach—that spoils digestion—just simply inhale the balsamic essences of Catarrhose, which are so rich in healing that they drive out every trace of Catarrh in no time.

For speakers and singers and persons troubled with an irritable throat, bronchitis, asthma, catarrh or la grippe, Catarrhose is of inestimable value.

The inhaler can be carried in your pocket and may be used at any time or in any place.

Large size, guaranteed, and sufficient for two months' use, costs 11s. Smaller size, 5s. Sample size, 2s. Sold by all storekeepers and druggists.

"So much better than anything I have ever used."

This is what a Boston woman writes about

Minty's Tooth Paste

"Can you tell me where I can get it in Boston?" she adds. This woman became acquainted with Minty's Tooth Paste while on a visit in Canada. She was brought to realize its wonderful cleansing action—the wholesome sensation that it imparts to the whole system. You, too, will realize the 100 per cent efficiency of this dentifrice after the first trial.

FLYING FROM LONDON TO PARIS AT NIGHT

Handley-Page Machine Makes Another Good Record; Wireless Telephone Helpful

London, June 21.—A double triumph in night flying and wireless telephony has been achieved by an aeroplane of the No. 1 Communication Squadron, R. A. F., which, carrying two passengers and nine bags of mails, flew from Kenley Aerodrome, near Croydon, London, to Paris against a powerful head wind in four hours fifteen minutes. This is the first official night flight between the capitals.

The machine was a Handley-Page bomber fitted with two 350-h.p. Rolls-Royce "Eagle" engines and piloted by Capt. George Chadwick, M. C. R. A. F. The navigator was Lieut. H. E. Saunders, R. A. F. A start was made from Kenley at 11 a. m. and Paris reached at 5.15 a. m.

For the first eighty miles—that is, until the machine was well over the Channel—Col. Primrose, commanding the squadron at Kenley, was in constant telephonic communication with the aeroplane. The speech was so clear that when the receiver was laid on the table in the wireless room the voice of the pilot could be plainly heard by persons outside the door.

The ground staff at Kenley overheard Capt. Chadwick speaking to the R. A. F. aerodrome at Lympne, on the Kentish coast, asking for lights to be displayed. Capt. Chadwick then told Col. Primrose he had passed Lympne, and a little later Capt. Chadwick was heard speaking to Marquise, as the Flanders coast. This is remarkable, as the instruments were designed for a range of thirty-five miles only, whereas conversation was actually carried out between eighty and ninety miles.

Capt. Chadwick, who flew the machine with passengers back to Kenley yesterday afternoon, said, on arrival, that he had found it quite as convenient to fly at night as by day. There was no error in the navigation, which was carried out solely by compass.

BISHOP AND BARKER TO ENTER AVIATION BUSINESS

London, June 21.—Two of the greatest Canadian flyers, Lieut.-Col. W. A. Bishop, V. C., and Lieut.-Col. W. G. Barker, V. C., have decided to enter the aviation business. The new firm will be known as the Bishop-Barker Co. Ltd. It is already registered in Great Britain, and it is the intention to register in Canada and the United States.

The company will carry on a general business as aeronautical engineers, and they will represent the Aircraft Insurance Association (of Lloyd's) in Canada and the United States. The American headquarters of the company will be at New York (where an aerodrome will be constructed), with a branch office at Chicago. The Canadian headquarters will be at Toronto, and there also an aerodrome will be erected, to serve the whole area of the Lakes. The initial activities of the company will deal with the insurance of aeroplanes, pilots and passengers.

MAJOR MANNOCK WAS LEADING BRITISH ACE

Officially Credited With 73 Machines in One Year, Decorated Four Times

"So far as can be ascertained," the champion British ace during the war was the late Major Mancock, triple D. S. O. and triple M. C.

This is the decision of the Air Ministry, which credits the dead officer with seventy-three German machines—a wonderful record for an aviator whose actual fighting career was less than a year.

Lieut.-Colonel Bishop, V. C., who was popularly regarded as the leading fighter of the Huns, is second on the list with seventy-two machines. The late Major McCudden had a total of fifty-nine.

Of all the Allied airmen Lieut. Fonck, the famous French ace, heads the list with seventy-eight machines, officially credited, and just over 100 reputed.

At the time he was shot down in July of last year the British champion had a list of fifty-eight official victories, and as this estimate dated only a week or two before he met

ENGLAND'S AERIAL DERBY SET FOR THIS MONTH

London, June 21.—After five years of war, the Aerial Derby—air race around London—is to be revived this year, and the date has been fixed for late this month. The race will start and finish at Hendon aerodrome. All London will have an opportunity of witnessing the spectacle of twenty to thirty speed aeroplanes racing around the suburbs of the metropolis, and will be able to realize the remarkable progress made in flying machines.

The race was first held in 1912, when T. Sopwith was winner in a seventy horse-power Bleriot monoplane, the average speed being fifty-nine miles an hour. In 1913 Gustav Hamill, in an eighty horse-power Morane monoplane, won at a speed of seventy-six miles an hour, and the winner of the 1914 contest was W. L. Block, an American aviator, in a eighty horse-power Morane monoplane at a speed of seventy-two miles an hour.

It is anticipated the speed of the winner of this year's contest will be 150 miles an hour. Three entries already announced include the American pilot Clifford E. Brodger, who will fly a fast scout machine with a W.B.C. engine.

WILL URGE ADOPTION OF HOUSING SCHEME

Ex-Service Organizations Will Wait on City Council; Comrades Suggested Action

Interest in the Housing Scheme amongst returned soldier organizations was created at the meeting of the Comrades of the Great War held last evening. Several of the comrades brought the matter before the attention of the meeting, claiming that the City Council should adopt the plan which would be of valued assistance to many of the boys who had returned.

The question will be immediately brought before the attention of the Central Council of the ex-service organizations. The Comrades of the Great War suggest that each of the associations select three delegates for the purpose of waiting on the Mayor and Council and asking them to reconsider their decision and accept the Housing Scheme.

The comrades decided to vote \$100 to the Red Shield Drive. A number of the comrades spoke favorably of the good work done by the Salvation Army in France, and urged that the fullest support be given to the drive. Comrades Frisgar, Britton and Birch were elected as a sports committee. It is proposed to form an athletic club in co-operation with an amateur association in this city.

A special meeting will be held next Saturday evening to discuss the revised constitution of the organization and the officers hope that as many members as possible will be present. Comrade Abraham, the newly elected president of the Comrades, presided at the meeting last evening.

CLOSING EXERCISES

AT ST. ANN'S CONVENT

Pretty Ceremony in School Auditorium; Rev. Father Leterme Presents Prizes

The auditorium at St. Ann's Academy presented an exceptionally pretty appearance yesterday afternoon when the white-frocked students participated in the closing exercises. Owing to the large number of students it was found necessary to seat the invited guests on the stage, the pupils occupying the main body of the hall, and entering through rose-covered arches at the rear. The girls made their entry to the strains of the Marche Triomphale played by two young students, J. Drysdale and R. Lutz. Other musical items on the programme included "A Song of Praise," sung by the senior girls; the chorus "Warbling Birds," by the very small students with much sweetness; "June Roses," an appropriate number sung with much charm by the Intermediate Class, and, as a final number, "Gone with the Cherished Host," the class song.

Certificates Presented.

In addition to the vocal numbers pianoforte selections were contributed by H. Kavetski and R. Lutz in duet; G. Jones and M. Gladwin, while a quartette comprising E. Spencer, E. Millington, M. Adam and V. Horn gave a finished rendering of the overture from Bizet's "Carmen." Rev. Father Leterme presented the grammar, grade certificates, medals, certificates and premiums of the academic grades, and certificates to the commercial class.

Edith Fecker made an eloquent valedictorian, and Rev. George V. Harding addressed the pupils, urging them to strive for the higher ideals in life with the same earnestness which had characterized their school work.

Honors.

The following is the honors list for the year:

Silver Medal, presented by His Excellency the Governor-General of Canada, awarded to resident pupils for observance of rule and exemplary conduct, merited by twelve pupils. Drawn by Antoinette Lagace.

Bronze Medal, presented by His Excellency the Governor-General, awarded to day-pupils for observance of rule and exemplary deportment, merited by forty-one girls; drawn by Flor Tourigny.

Premiums for Christian Doctrine—Senior Class: Presented by Rt. Rev. Mgr. Leterme, won by Grace McKenna. Intermediate class: Presented by Reverend Mother Provincial, won by Mary Owens. Junior Class: Merited equally by Margaret Paine, Lillian Goward and Josephine Webster; drawn by Margaret Paine.

Primary class: Merited by Mary Frances Ebbs-Cavanan.

Gold Medal for politeness and improvement among senior resident pupils: Merited by twenty-three girls; drawn by Blanche Thomson.

Gold Cross for improvement in manners among Junior resident pupils: Merited by six girls; drawn by Fern Millington.

Premium for Literature and Composition, senior academic class, presented by His Lordship Bishop MacDonald, Merited by Jean McLellan.

Premium for class excellence in academic department, presented by the Young Men's Institute: Won by Moninna McKenna; also premium for mathematics in Junior academic grade.

Premium for class excellence in grammar grades, presented by the Knights of Columbus: Won by Gladys Garschke.

Class excellence in primary grades: Won by Dorothy Geake.

Premiums for mathematics, presented by the Young Men's Institute—Senior academic class: Mary McLellan. Grammar grades: Alice Bayfield. Primary grades: Agnes McLellan.

Premiums for languages, presented by the Knights of Columbus—French: Senior academic, merited by three girls; drawn by Josephine Fraser. Junior academic, merited by Edith Cyr and Kathleen Drennan; drawn by Edith Cyr.

Latin: Academic class, merited by Hester Richards.

Premium for geography, presented by the T. N. Hibben Company: Won by Eva Spence.

Premium for spelling in commercial department: Drawn by Madge Reid.

Premium for English composition

THE WINNIPEG STRIKE

A Statement From the Citizens of Winnipeg to the Citizens of Victoria Western Citizens Asked to Join in a Country-wide Organization to Protect Canada

During the past five weeks the whole fabric of business activity of Western Canada has been disrupted by the Winnipeg strike. This strike was originally and ostensibly called as a sympathetic measure, to force settlement of a dispute between the metal working trades in Winnipeg and three employers.

Every city of Western Canada has not only suffered directly from the effects of the Winnipeg strike, but has also suffered local strikes, to greater or less degree, also called in sympathy at the request of the Central Strike Committee, Winnipeg.

Because three private firms in Winnipeg could not agree with their workers, the trade of the West has been disrupted, commerce throttled, enormous loss to perishable foodstuffs occasioned, production retarded, and hundreds of thousands of people who were not interested in any way, who had no way of making either of the disputant parties do anything, have been made to suffer.

THE Citizens' Committee of Winnipeg was primarily organized to protect life and property and afford the essentials of water, food, milk and bread to the people of that city. As it became apparent that the Strike was not merely a dispute between employers and employees but a deliberate attempt to raise the head of Bolshevism in Winnipeg with the ultimate object of placing this city and country under the administration of the Soviet Government, the efforts of this Committee were enlarged and extended to cope with the situation.

At the Calgary Labor Convention, in February, these agitators showed their hands clearly and plainly, sending greetings to the Soviet Government in Russia, and declared flatly their intention of introducing Bolshevist Government in Canada, and called on the workers to aid them.

BOLSHEVIK PLOT Evidence has come to this Committee which satisfies us in the belief that this and other strikes throughout Canada are being engineered by a group of anarchists and socialistic agitators for the purpose of destroying the Constitutional Government of Canada and introducing Bolshevism therefor.

The Citizens' Committee of one thousand has trustworthy evidence that even behind these strike leaders there is yet a more sinister group of secret agents, who during the war were the agents of German sedition in Canada and the United States. Apparently the Strike of Winnipeg is but one of a series of similar strikes which these men hope to foment in various sections of Canada during the present summer and autumn.

OVER HALF METAL WORKERS ALIENS These things being true, you will ask how it was possible for Canadian Trade Unionists to follow such leadership. You must remember that the Unions with large membership were increased several hundred per cent. in membership during the war. This increase was made up almost entirely of foreigners. It has been stated that over half of the members of the Metal Workers' Union in Winnipeg, who

started the present strike, are of alien nationality. These men gained the ascendancy in the Unions during the war, when so large a proportion of the loyal Canadian workmen were in France fighting their country's battles. Now that the returned soldier is coming home and looking for his job these aliens realize that they will be divested of their present employment in favor of returned soldiers, unless through their Union affiliations they can hold a club at the head of the employers and maintain their position.

LOYAL WORKMEN MISLED

Moreover, of the 30,000 men and women in Winnipeg who were called out in this Strike, over 90 per cent. had no quarrel with their employers, had no grievance and did not want to quit work. Strike votes were called preemptorily, and Union after Union was declared as voting for Strike when but a few of the members had voted at all. In our opinion, many of the Unions followed their leaders blindly and unwittingly.

We have evidence that it is part of the organized effort behind these strikers that they should be incited during the present season for the deliberate purpose of tying up transportation and shutting off the market for farm produce. By this means the transportation of farm machinery will be stopped, the movement of seed grain and other necessities of farm work would be curtailed and the storage and sale of butter, eggs, live stock and all other food products would be stopped. This action just at a season when the movement of milk, eggs, meat and food products from the farms is at its height; when the storage warehouses are being filled would thus increase the high cost of living and make the situation more and more intolerable.

THE DASTARDLY PLOT

It was the plan to continue these strikes, bringing on the biggest and most far-reaching in the fall, for the direct purpose of tying up the movement of wheat after harvest and of forcing the situation to a climax when the payment of post-war gratuities and deferred pay to returned soldiers would have ceased. Thus a situation would be created

The Citizens

The Citizens' Committee of Winnipeg feel, in the fifth week of the great strike, that it is their duty to inform the Citizens of the whole West of some of the causes that underlie this disturbance, to clearly indicate the common danger ahead; to warn you of the other and even more far-reaching agitations that are plotted and to ask loyal citizens of our Canadian West, regardless of creed, politics, party or affiliation, to join for the mutual protection of our liberty, freedom and prosperity.

where hungry, desperate men would be ripe for any trouble, and in the minds of these leaders, a social revolution could be carried out at a stroke, setting up their Russian Soviet form of Government in the place of the British Constitution.

WHAT ARE YOU GOING TO DO ABOUT IT

Winnipeg is now in the grip of the strike for the fifth week. The citizens of this city, thoroughly aroused, are prepared to fight it out if it takes all summer. Our purpose in publishing this statement is to inform and arouse you to the crucial state of affairs that is upon us. Only through the prompt and energetic action of the citizenship of Canada can the serpent of Bolshevism be thrown from our midst.

UNION JACK OR RED FLAG

F. B. Stacey, M.P. for New Westminster, B.C., voiced the firm conviction of the citizens of Winnipeg when he stated in Parliament, June 12th:

"The one great thought in the West is whether the Union Jack shall float over Canadian cities or the Red Flag of Revolution."

In the opinion of the Citizens' Committee of One Thousand in Winnipeg, similar committees should be formed in every city and rural community in Western Canada, and a sustained, vigorous and firm campaign of education carried on until the whole country realizes the danger it faces and forces the skulking revolutionist out of our midst.

WE ASK the immediate linking-up of the similar Citizens' Committees already formed in the Cities from the Lakes to the Coast.

WE SUGGEST the organization of Citizens' Committees in every city and rural community.

WE URGE the representatives of every Citizens' Committee existing so formed, to write at once to us so that an organized, systematic association of Loyal Citizens may be created for our mutual safety, the preservation of law and order, justice and constitutional government.

CITIZENS' COMMITTEE OF ONE THOUSAND, WINNIPEG

TO INITIATE THIS GENERAL MOVEMENT, WINNIPEG IS PUBLISHING THIS SIMULTANEOUS ANNOUNCEMENT THROUGHOUT WESTERN CANADA

and literature in grammar grades, presented by the Victoria Book and Stationery Company: Won by Doris Woolison.

Premiums in music department: For application in piano: Merited by Phyllis Wilkinson. For application in singing: Winifred Byrom.

Premiums for improvement in penmanship: First, won by Adele Hamberger, unavailably absent; second, merited equally by six girls; drawn by Dorothy Gibson.

Premium for needlework: Merited by ten girls; drawn by Queenie Jones.

Premium for obliging manners;

Merited by eleven girls; drawn by Phyllis Clarke.

Premiums for regular attendance during school year: Flor Tourigny, Lillian Wilkinson, Alice Baines, Cecile Handford, Violet Horn, Lillian Case, Helen Stewart.

Premium for order and neatness (resident pupils): Merited by nineteen girls; drawn by Eunice Millington.

Special thanks were expressed to the Knights of Columbus and the Young Men's Institute for their generous donation of premiums as an encouragement to the students.

THE WAR'S EFFECT ON CHARACTER

The effect of the war on the character of the soldiers will exercise an immense influence in the life of every nation that threw its men into the struggle. They come out of it changed, not all in the same way, but some for the better and some for the worse. Which are the majority, those who are now of higher type or those who are lower? In concluding his series of brilliant articles in The Sunday Her-

ald, Mr. Philip Gibbs has considered this question in relation to the British soldiers, but with a broadness of outlook on the working of the human mind that makes his judgment applicable to the soldiers of any nation. He avows himself an optimist as to the ultimate outcome of the upheaval of human nature in the years of war. "I believe," he says, "that the majority of our soldiers who are coming back from the war are bigger men in minds and bodies, with bigger views of the destiny of mankind, a broader outlook on the world, and greater strength of conviction and action." We hope that he is right as to the preponderance be-

ing on the right side, and we know that the effect on many of our young American soldiers has been just what he describes. On the other hand, it cannot but be true that some "have been hardened and to some extent brutalized, or, if they have been sensitive enough and intelligent enough to avoid a brutalizing process, they have come back—some of them—with a passionate sense of revolt against the things they had to do." On many characters the effect will be seen in intensification rather than transformation, the brutal being more brutal than before, and the spiritual, by inevitable revulsion from the cruel and

horrible, being more spiritual. Out of the compassion of the latter for the suffering will come the firmest resolve that there shall be no more war. Probably few of the soldiers of any country will be satisfied with social and industrial conditions on their return. Mr. Gibbs tells of British soldiers being bitterly resentful of the people a home who did not suffer like them and parted with none of their wealth and domestic happiness. And in the trenches, he says, the men heard of big wages being paid to all kinds of "war workers" and are smarting under a sense of injustice.—Boston Her-

Special Meeting of Local Union No. 120, I.B.E.W., will be held in Electrical Workers' Hall, Saturday, June 21, at 8 p.m.—W. Reid, Secretary.

Aged Men See Interesting Film.—Skipper Francis and Sergt. Smith, of the Y.M.C.A., assisted by Miss Howell, pianist, entertained the inmates of the Aged Men's Home last night. A "movie" entertainment on the recently-installed picture machine included two comedies, and the film depicting the skipper's famous swim across the Bristol Channel, a number of songs were also contributed by Mr. Francis, much to the enjoyment of the inmates.

Burnside School Picnic.—Seventy students of the second and third reader of Burnside School spent an enjoyable afternoon picnicking at Mr. Tolmie yesterday. Arrangements were made with the B. C. Electric Railway Company for special cars, and on arrival at their destination, the youngsters spent a happy time playing games under the direction of the teachers, and also visited the top of the mountain. The merry party reached home about 3 o'clock.

Delighted With Island.—A party of automobilists composed of J. W. Scott, of Vancouver, Mr. and Mrs. C. J. Evans, of Seattle, and Mr. and Mrs. McLaughlin, of Seattle, have just returned to Victoria after an extended tour of the Island roads. Mr. Scott speaks most enthusiastically of the condition of the thoroughfares. First the party went from Nanaimo to Campbell River, they returned by way of Qualicum, where they visited the hospital, to Parksville. From Parksville they proceeded over the summit at Cameron Lake to Alberni. A side trip to Great Central Lake was also made.

School Baseball.—The presentation took place at North Ward School last night of the baseball trophy won by the girls' baseball team in the schools league. Every game played was won by the school, South Park, George Jay, Girls' Central, Sir James Douglas, Margaret Jenkins and the Willow Schools being the other teams in the league. In the Boys' Baseball League, first place was won by George Jay School, Boys' Central being next. The other teams in the race were South Park, North Ward, Margaret Jenkins and Sir James Douglas. The presentation of the trophy to the boys' nine will take place Tuesday.

Local Wills.—The following probates of the wills of deceased persons were issued during the week ending June 19, 1919, at the Supreme Court Registry, Thomas Gordon, Albert Bradshaw, Elbert T. Lamphere, Mary Ann Parsons, Alexander Burton McKenzie, Mary Elizabeth Marr, David W. West, Mary Whitman, Alfred Bekker, Arthur Wellesley, Vowell, J. Chivers Shaw, Administrators with will annexed: Godfrey Horace Beavis, Lillian Maud Griffin, William Lang, Richard Cox, Administrators: Myrtle May Pollard, Robert Edward McCluskey and George Augustus Green.

Will Tour City.—The Victoria and Island Development Association is making every effort to make the visit of the Greater to the city to-morrow as pleasant as possible. The party will arrive in the afternoon and will be taken for a drive around the city. Commissioner McAdam is appealing for cars for this purpose and already the following have consented to assist in this way: Cameron & Colwell, Thomas Plimley, Jameson, Roif & Willis, the Island Automobile Association and members of the Association executive. Each visitor will be presented with one of the handsome souvenir postcard folders just issued by the Association.

To Join Scouts.—The Granite Street Boys' Club, 47 Oak Bay, is practicing the usual scout methods, with a view of joining one of the scout organizations. The club meets every Friday at 7 o'clock p. m. for practice at the St. Columba School, Mitchell Street, and on Saturday afternoons takes a run into the country, scouting, with an occasional picnic. It is hoped that starting next week the boys will be able to take advantage of an offer by the Y. M. C. A. whereby they can all learn to swim. Between twenty and thirty boys so far have taken advantage of this movement, designed to help all the boys in the district from nine to fourteen years of age to learn to swim, wood and camp craft, as well as in the near future simplified navigation and boat drill. First aid and ambulance work, as well as general social work for the winter months, will be all taken up. The leader for the present until other workers can be obtained, is Mr. Seymour Greene. This organization is not connected with any church, but insists that all boys must belong to some church. Lectures on subjects boys are interested in are being arranged for.

MEN SWEAR—WOMEN COMPLAIN
Just because their corns ache—easy to cure them with Putnam's Corn Extractor; it acts painlessly in twenty-four hours. For corns, warts and calluses the only thing is "Putnam's"; try it, 25c. at all dealers.

RETURNED MEN ARE TAKING UP FARMS

Active Movement in Moderately Priced Holdings Is Reported
Local realty men report a brisk movement in certain classes of real estate. The demand seems to be largely for small houses in the city. The local offices have put through quite a number of sales of such properties within the past week or two. The explanation is offered that people are forced to buy their homes, as it is impossible now to rent.

There are no sales of vacant lots, indicating that there is no tendency to speculate and that the sales put through have been in connection with properties moderately priced. The cost of building material is still too high to encourage building operations. The requests for farm properties come mostly from returned soldiers who are desirous of taking up land where there is a fair amount of clearing already done and the "back to the land" movement by so many of the returned men is having a big influence in getting others interested in rural settlement.

WILL HELP BUY NEW OPERATING TABLE

Dr. O. M. Jones Chapter to Give Half Garden Party Proceeds to Jubilee Hospital
One-half of the proceeds derived from their garden party to be held at the Jubilee Hospital on July 19 will be donated by the Dr. O. M. Jones Chapter towards the purchase of a new operating table for the hospital. Such was the decision made by the members at the monthly meeting of the Chapter on Thursday evening, the general feeling being that their action in this matter would be in accordance with the desire of the late surgeon whose name is perpetuated by the Chapter.

Four New Members.
Mrs. W. M. Ivel, the regent, was in the chair, Mrs. Langford acting as secretary in the absence of Miss Patterson through illness. Twenty-seven members were in attendance at Mrs. Hall, Mrs. Ormiston, Miss Thom and Miss Grace McQuatt were welcomed as new members, while four new members were in attendance at Mrs. T. Ravenhill on the aims and objects of the "Boys' Naval Brigade." The Chapter expressed its warm sympathy with the movement to which they hope to extend material support in the near future.

Milk Proves Beneficial.
The members felt greatly encouraged by the report of Miss Grimmer, the who stated that the children receiving the daily allowance of milk through the Chapter's milk fund were showing marked improvement. The Visiting Committee reported visiting the hospitals and leaving magazines and books for the patients.

Miss M. A. Campbell, of the Zenana Medical Mission of Bombay, gave an interesting talk on the work of the I. O. D. E. in India. The members were enthusiastic at the possibilities of such a movement and hope shortly to make a donation to the establishment of a much-needed dispensary at Nasik.

Plans for the garden party on July 19 were then discussed and arrangements were completed for booths for the sale of homemade candy and cooking, flowers and fancy work, a generous goose for the kiddies, fortune-telling, and the serving of afternoon tea and ice cream. The programme is to be arranged; through the kindness of Mrs. Woodward, Muggins will be present with the cake-cutting box will be present with Chapter's milk fund for ill-nourished children.

HOSPITAL HAS DEFICIT

Jubilee Hospital Board Meets; Several Matters Discussed.
In facing the necessity of laying plans for the coming year the Jubilee Hospital Board of Directors at its meeting last night called attention to the fact that with the year ending June 30, 1919, a deficit of about \$20,000 would have to be dealt with. The financial standing of the institution will require serious consideration at the hands of the subscribers who will hold their annual meeting on Monday afternoon, June 30, at 2:30 o'clock.

The Board last night expressed satisfaction with the report of the X-ray department submitted by Dr. Poyntis, who is in charge. On behalf of the ill patients the Board extended its thanks to the Red Cross Society for the piano recently presented to the tubercular ward of the hospital. The sum of \$50 was voted toward the nurse's graduation exercises expenses, which exercises will take place in connection with the hospital's convention to be held in the city next month.

Musical Club Garden Party.—Final arrangements have been completed for the garden party to be held at "Schubum," Rockland Avenue, on July 5, under the auspices of the Ladies' Musical Club. The many and varied attractions will include booths for the sale of home produce, under the direction of Mrs. J. O. Cameron; ice cream, Mrs. Umbach; flowers, Mrs. Macdonald; baby's white bathoons and butterdies for the kiddies will be sold. Tea is to be served under the direction of Mrs. R. Naab, while Mrs. Walsh, Mrs. Love and Mrs. Hoard have charge of the arrangements for brides, which is to be played in the house. Anyone desirous of engaging tables for bridge is requested to communicate with Mrs. Walsh or Mrs. Love.

To Elect Members of Hospital Board.—The city members of the Board of Directors of the Provincial Royal Jubilee Hospital will be elected by the City Council on Monday night. The present city members are: R. S. Day, Chairman of the Board, James Forman, Alex. Stewart, J. W. Bolden and James Purfill.

"Virol saved his life."

Messrs. Virol, Ltd., Montreal.
I should like to tell you what Virol has done for my baby Lucien. He was very ill, and I was afraid that he would not live. On the advice of my doctor I gave him Virol, and he improved immediately. Now at the age of seventeen months he is a happy boy, and in splendid health. I am very grateful to Virol for having saved his life. Yours faithfully, M. ANGELA ROY (Madame Joseph Roy).

Virol increases the power of resistance to the germs of disease, and replaces wasted tissue, it is therefore a valuable food in Measles, Whooping-cough, Infantile Diarrhoea, Influenza, etc.

Sole Importers: SOYRIE, Ltd., 27, St. Peter Street, Montreal.

MANY TOURISTS HERE.

Development Association is Taking Every Step to Facilitate Their Comfort.
Although the season has not yet advanced so far as tourist traffic is concerned, there are many tourists in the city already. The Victoria and Island Development Association endeavors to arrange daily programmes for visitors who come here very often with no knowledge whatever of the chief attractions. Automobile tours are suggested around the Saanich peninsula, over the Malahat Drive, to R. P. Butchart's sunken gardens, or via the daily sight-seeing cars. The water trip to the Gorge is also proving a great favorite with tourists and many are attracted by the tour around the Gulf Islands.

With Victoria now looking her best, tourists are most enthusiastic over the city's beauty, and the parks and gardens come in for a great deal of patronage.

ALEX SANDER Answers Questions

Although my namesake leaves to-night— which fills me with delight— He's really far too good for me To imitate successfully.
He leaves behind to play the game A man—McLean, of Laundry fame. His institution stands alone in Victoria, New Method, Two-Three Hundred Phone.
Alex. Sander, "the man who blows," possessed of a world-wide reputation, has at last consented to import to the world some of his wonderful knowledge by answering daily through this column, during his appearance at the Royal Victoria Theatre, a number of baffling and puzzling queries, selected at random from a wagon load of thoughts. If you have a perplexing problem don't write it and don't send it to Alex. Sander, or it will not be answered.

Here is to-day's amazing queries, and Alex Sander's answers, which are frank and embarrassing:
R. W. M.—Will the Canadian Northern ever run trains to Sidney?
Answer: Where is Sidney?
J. D. O. C.—Will they ever make me International Rotary President?
Answer: They might, if you have a gun in your hand at the time.
Geo. A. F.—Will my business in the North be a success?
Answer: Your business will increase materially upon arrival of Government new printed forms.
Mayor Porter—Would you advise me to recommend the expenditure of \$1,500 for supervision of playgrounds?
Answer: If you want to save your bacon next January, you had better.

M. J. P. C.—What institution best aids the church?
Answer: Such an institution as the New Method Laundry, because cleanliness is next to godliness. Go round and see if you don't believe me. Everything there is as clean as a new pin.
Ask McLean—the man who knows how.
Alex. Feden—Is there such a place as heaven?
Answer: Yes. It is a place where there are no life insurance agents.
Carl Pandray—Will it ever become fashionable to paint houses in Victoria?
Answer: Yes, whenever it is possible to obtain good paint.
Jas. H.—Will the Prohibition Act be repealed?
Answer: Not while bootlegging is fashionable and profitable.
Geo. I. W.—Will premiums on accident policies advance on account of so many persons slipping on the oily streets of our beautiful city?
Answer: Alderman Fullerton has the only solution. Ask him.
Edwin L.—Will cement ships ever be in general use?
Answer: Profitreering is in bad odor just now.

A Piano That Will Last a Lifetime

The quality of every piece of material that enters into the construction of the Gerhard Heintzman Piano is absolutely above suspicion. This is the secret of Gerhard Heintzman's Dominion-wide popularity to-day—just as it was 50 years ago.

Gerhard Heintzman Canada's Greatest Piano

has a tone of rare distinction. It is sweet and mellow when the instrument is new, and with the passing of years it grows mellow and richer with use.
See the newest designs of the Gerhard Heintzman Piano at this store. We welcome your inspection at any time.

HOLIDAY MAKERS ENJOY BEACHES

Camping Sites Have Been Secured For Summer by Many Parties

Holiday makers who during the last few days have been attracted to the many beautiful beaches of the island declare that the season is now ideal, and the sands are daily well sprinkled with picnickers. The water is at a temperature which makes it possible to enjoy bathing comfortably for long spells at a time, and most refreshment stands, bathing houses, etc., at the waterside attractions are open for the summer season.

Langford Lake.

Many swimmers who have tried the waters of Langford Lake have come back enthusiastic, and this particular resort is proving one of the most popular places for auto parties. The distance

from the scene of several summer picnics, Cordova Bay already presents the familiar mid-summer camping scene and is particularly a favorite with auto owners in that it is easily accessible for those who like to prolong their season camp by the water long after the usual time the average city family is able to spend on a vacation. There is plenty of space for parking machines and scores of auto owners have taken an extended-lease on their summer sites. They make the daily trip into town for the regular business of the day.

Daylight Saving Helps.

Daylight saving makes it possible for the business man leaving work at 4 or 5 o'clock to motor back to the camp and still have several hours of delightful weather left warm enough for boating, swimming, or basking in the sun on the clean sands of the bay.

An Ideal Beach.

Cadboro Bay is more popular than ever before. It would be hard to find a more ideal bathing place or a more ideal beach. The outstanding white stretch of sand gives a tropical appearance that is as appealing to the elder people as it is to the youngster who is attracted by Robert Louis Stevenson's stories of the Pacific sea. The bay makes both a pleasant auto ride along paved roads for an evening trip, or a convenient place for the camper

Camping Season Now Is Becoming Popular With All Classes of People

is convenient to those who like to combine a picnic with an auto ride, and not devote too much of the day motoring to the spot where they intend spending the day. An excellent auto road all the way also adds to the attractiveness of an outing at Langford.

Summer Picnic.

Cadboro Bay, Cordova Bay, Fowl Bay and the Willows beaches have already

who has to come to town each day. Guests and picnic parties are accommodated at the hotel.

Millstream Park.

A greater distance away from the city, and one that will appeal to motorists who desire to make the trip of the Malahat to a camp secluded from any suggestion of city traffic is Millstream Park, near Nanaimo. Recently the Na-

Every Ford Car is Champion Equipped

The fact that since 1911 Ford Cars have left the factory equipped with Champion "X" Spark Plugs is the best possible reason why every plug replaced in your Ford should be a Champion "X".

The Ford instruction book says—"The make of plugs with which Ford engines are equipped when they leave the factory are best adapted to the requirements of our motor."

No indorsement can be stronger than that of the Ford engineers for

Champion Dependable Spark Plugs

The exclusive factory equipment of Fords, Overlands, Maxwells, Studebakers and the overwhelming majority of all gasoline motors and engines in use is not a matter of guess—Champions have justified every claim and every confidence by an unbroken record for dependability under every possible test in actual service.

Specialization is responsible for Champion superiority—all our energies are devoted only to building better spark plugs. The asbestos lined copper gaskets that cushion the insulator are an exclusive feature—the 3450 insulators themselves will withstand tests that destroy ordinary insulators.

There is a type of Champion that is especially adapted to increase the efficiency of your Motor Car, Truck, Tractor, Farm Engine, Motor Cycle or Motor-Boat.

Be sure that "Champion" is on the insulator, it guarantees "Absolute satisfaction to the user or full repair or replacement will be made."

NOTES BIG DEMAND FOR OVERLAND CARS

Thomas Plimley Explains Why Car Is So Popular With Auto Buyers

Two carloads of Overland passenger cars have been received by Thomas Plimley within the last few days. Yet the demand threatens to create a shortage should there be any falling down in the shipments en route from the factories, reports Mr. Plimley who, as local distributor for Overland cars reports one of the most phenomenal successes in this season's sales experience since he began the automobile business in Victoria.

"The Overland sells on its merits," said Mr. Plimley to a Times representative. As an illustration of the cars' endurance Mr. Plimley referred to the recent record set by an Overland in and about Harrisburg, Pa., when 702.5 miles was made daily in high gear, under all sorts of conditions, through rain and mud and traffic and an average speed of 29.7 miles was maintained for seven days.

All previous records for daily mile-

age maintained for five and one-fourth days of the seven-day run, on a non-stop schedule in high gear, were broken by this stock touring car. The Harrisburg score presents the following new world record features: Daily average, 702.5 miles; average rate, 29.7 miles; mileage for seven days and nights, 4,523.6 miles.

The run did not set a new high mark of a seven-day nonstop sealed-in-high-gear run because the engine was stopped once by a break in the gasoline line. This occurred after the motor had run continuously for five days and six hours, and happened on a muddy country road at night when no help was available. About six hours was lost repairing the gasoline leak and then the car resumed its run, beating all recorded seven-day-mileage records using only high gear.

The nonstop record was perfect up to the time of the "gas" line break. The course covered a radius of sixty miles around Harrisburg. Running conditions were difficult, including traffic obstacles, rough clay roads and hills, and showers the first night out, with continuous heavy rains. The test was staged by the Overland Harrisburg Company, distributors of Willys-Knight and Overland cars.

Record Set in Spring.

The run was announced as an attempt to beat the world record as set by a model 90 in Oklahoma City, March 29-April 5. It is reported that conditions under which the test was run were worse than in Oklahoma. In the Oklahoma run few hills were encountered; around Harrisburg inclines abound, which, together with mud, ac-

count for the fact that the average gasoline consumption at Harrisburg was seventeen and one-third miles to the gallon, while 20.64 miles was scored for every gallon used in the Oklahoma test.

"The daily mileage average at Harrisburg exceeded by 115 miles the A. A. A. official twenty-four-hour nonstop record, and beat the Oklahoma twenty-four-hour average by 78.2 miles. In the last hour and a half of the Harrisburg run the driver made forty-three miles, a fact that is pointed out by the distributor as demonstrating the fine condition of the model 90 at the finish.

EXCUSED.

"Please, sergeant major, may I be excused from church parade? I'm an agnostic."

"Don't you believe in the Ten Commandments, then?"

"No, I don't."

"Not even the one about keeping the Sabbath?"

"No."

"Well, you're the very man I've been looking for to scrub out the center."

NOTED SALVATIONIST PRAISES THE DODGE

Mrs. Ballington Booth Tells of Automobile's Service Overseas

Dodge Brothers had 14,000 cars serving with the American troops in Europe and many letters expressing appreciation have been received by the factories, and most valued of which probably is that written by Mrs. Ballington Booth, one of the chiefs of the Y. W. C. A., the organization that carried on such splendid welfare work at the front.

The Begg Motor Company, local Dodge distributors are in receipt of a copy of the letter, which reads as follows:

"Several times while traveling through France and Germany I was inspired to exclaim: 'I really must write to the Dodge Company when I get home and tell them what I think of their car. Now that I am home that intention has not weakened. I have spent the whole of this winter

in France and Germany amid the mud and rain and shell-torn roads of the battle front, and later over the steep mountains and through the narrow gorges between Luxemburg and the Rhine.

Gave Splendid Service.

"General Pershing gave me for my use while I served the A. S. E. F., a Dodge car. With my little company of entertainers I was enabled to go to many of the boys in isolated spots who had no transportation to send for me and would have gone without entertainments had I not had my car. We traveled hundreds of miles, sometimes over almost impassible roads. We scaled mountains, where at every minute we had reason to fear that our little car might balk at further pressure. But we never had a minute's trouble. I can say most emphatically that the Dodge gave splendid service and held out where we have found other cars disabled by the roadside.

"When my service with the army was through and I had to return the car to them I felt as if I was parting with a personal friend and wished that it could run me down to Brest and be taken aboard the transport and sail for home with me.

"From what I have heard from many sources, I believe that others have had just as successful experience with the Dodge at the front as we have had."

The cars that served in the army were of standard specifications, precisely like the Dodge Brothers motor cars that are being built day after day for domestic and foreign markets.

TAKES MEASURES TO POPULARIZE THE EVERGREEN HIGHWAY

Route from Victoria Established Here Two Years Ago to Be Improved

ALL-SEASON AUTO TOUR THROUGH THE MOUNTAINS

A scenic tourist route for transcontinental auto travel, with signs posted this year from Victoria and Vancouver, B. C., all the way to Salt Lake City, Utah, and eventually all the way to the Atlantic Coast, is soon to be a reality, according to the ambitious plans of the Evergreen National Highway Association.

W. A. McAdam, publicity commissioner of the Victoria and Island Development Association, attended the annual meeting of the Board of Trustees at Tacoma recently, and was elected a member of the executive committee. By-laws were adopted, an executive committee elected and plans laid for the starting of a vigorous publicity campaign to bring to public attention the many advantages of the Evergreen Highway route.

The plan does not mean the establishment of an entirely new system of roads (the roads are already opened and for the most part in good condition), but rather an organized movement of all the communities along the route to encourage the early completion and improvement of the connecting links between the existing units of the highway, so that it will present an unbroken chain of good roads from the Eastern States to the Northwest; to establish tourist information bureaus, where maps, mileage charts and literature regarding the cities en route will be available; to encourage the establishment of free camping sites for the convenience of camping-out tourists; to install the complete system of sign posts, making it easy for the stranger to pursue his journey; and to carry on a campaign of constructive publicity to interest the Easterner in spending his vacation by making a trip to the Northwest.

Trails Highway from Kansas City to Lost Angeles. She figures follow:

1911—No signs	113 cars
1912—No signs	113 cars
1913—No signs	194 cars
1914—Sign work started	419 cars
1915—Signs completed Kansas City to Los Angeles	1,367 cars
1916	1,774 cars
1917	2,697 cars
1918	4,540 cars

Four thousand two hundred and forty cars brought into California in one year over a single road! Allow an average of four passengers to the car an average daily expenditure per person of \$5 for accommodations and entertainment, figure that these people stayed in California from one to three months, and the result will show why California gives so much attention to their road signs, auto clubs and publicity work for tourists.

The competition of a good auto highway into the Northwest which will be so well marked that the tourist will find it easy and pleasant to follow during most any time in the year, will mean that our tourist season can be lengthened to eight or nine months instead of three or four with financial returns in proportion.

The first work to be accomplished will be the completion of the sign posting through to Salt Lake City. This work is to be completed at once as many Northwest Rotarians will be going to the annual Rotary convention in Salt Lake City in June and a road tour is being formed to those who wish to drive their machines along the Evergreen Highway route.

Headquarters for the Evergreen Highway have been established in Tacoma. The executive committee, which will assume supervision of the work in hand, elected at the recent meeting, is as follows: I. M. Howell, Olympia; A. J. Rhodes, Seattle; A. J. Elrod, C. F. Nolte, Bellingham; Eugene Cox, Lewiston, Idaho; J. G. Bywater, Salt Lake City, Utah; Dr. S. L. Foster, Walla Walla; W. A. McAdam, Victoria, B. C., and J. C. Rowland, Tacoma.

The officers of the association who are giving their time and attention unselfishly to the work, are as follows: Francis H. Sweetland, Tacoma, president; Ben F. Hill, Walla Walla, first vice-president; A. Elrod, state vice-president for Washington; B. Shoemaker, Pasco, treasurer; Homer N. Tinker, Tacoma, assistant treasurer, and S. E. Brokaw, Tacoma, secretary.

STUDEBAKER PLANS DOUBLED.

A. R. Erskine, president of the Studebaker Corporation, is authority for the statement that the original plans of the company for building and equipment amounting to about \$4,250,000 during the present year have been revised because of changed and improved conditions generally, and the company is now prepared to double its original building programme. It is contemplated that the new plant expenditures for the year will amount to approximately \$8,500,000.

EYE DRILL.

The Royal Air Force has instituted an eyedrill that has made many splendid pilots out of men who would otherwise have been useless.

It was discovered that a large percentage of men only use one eye at a time, and in the early days pilots were not tested for eye balance. Many men were then passed into the air service who could never land correctly. When these deficiencies were discovered a school was formed, and under an eye specialist twice a day airman undergoing the cure were paraded for eye drill and taught how to use both their eyes at the same time.

The result was that ninety-five per cent of the men who would have been bad pilots became good ones. — *Tit-Bits.*

Any car owner who has struggled with a battery terminal so set that it cannot be removed from its socket will welcome this idea for a pair of tongs especially designed to care for this trouble. Take a pair of wide-faced pliers and, if necessary, hammer the faces flat. Next cut a slot in one of them large enough to allow it to be placed over the cable side of the terminal, while the other face exerts pressure against the other side. No terminal can resist this treatment.

GOODYEAR CORD TIRES

MADE IN CANADA

KARAT—measure of purity for gold; solid gold is generally 14K, because this quality gives longest service and greatest satisfaction.

—Oxford Dictionary.

14 Karat Fine—This Tire

Men speak of the Goodyear Cord Tire as jewellers speak of a solid gold watch-case.

It is a piece of craftsmanship, fine and worthy of its producer.

It embodies value far beyond even the high-grade materials used—for in the Goodyear Cord Tire is a value of workmanship unsurpassed in any tire.

And the result? The same fine service, long-lasting and economical, as is given by a solid gold watch-case. The same finished and handsome appearance. The same pride of ownership.

And just as no substitute can ever give you the value of solid gold, so no tire less worthily built can give you the value of the Goodyear Cord Tire.

For really lower tire cost—for lower costs for the year—try a set of Goodyear Cords. In mileage, comfort, gasoline-saving, they will outdo your expectations.

See the Goodyear Service Station Dealer. He has the story of Goodyear Cord Tire Saving in facts and figures.

The Goodyear Tire & Rubber Co. of Canada, Limited.

A portion of the route along the southern border of the State of Washington is already posted with distinctive Evergreen Highway signs and a capable field secretary has been obtained who will leave in a few days to complete this important work as far as Salt Lake City at once.

One of the most appealing features of the Evergreen Highway is the fact that the route throughout has been located so that it avoids most of the natural obstructions found on so many of the Western routes and, by going around the mountains, rather than across them, the roads, when fully completed, will be available for travel practically twelve months of the year.

The highway is laid out along the water routes, making easy grades, beautiful scenery available, and being within sight of running water practically all the way, reaches the most highly developed and densely settled sections of the country through which it passes. This feature is especially appealing to the traveller in those States containing arid desert land.

It is pointed out that on account of such location the Evergreen Highway serves the greatest number of local people in each territory and is destined to become the most important road in the district and therefore maintained in the best condition.

The addition of this important artery for tourist travel means much to the cities of the Northwest. Statistics show that the number of auto tourists is growing rapidly and, with the growing demand for good roads, it is entirely possible to conceive of a time when the streams of auto tourists along the main thoroughfares across the continent are going to exert even a greater influence on the future of the communities along the route than that shown along the way of the first established transcontinental railroads.

In fact the automobile has already brought back to life some of the "ghost cities" of the West—towns which in the early days were famous for their boom growth and importance, but which after the establishment of railroad transportation, were deserted for other locations along the railroad route.

Cars and Signs.

C. A. Collins, field secretary of the Evergreen National Highway Association, presented some interesting figures to the trustees showing the results obtained by the Auto Club of Southern California by a sign post campaign along the National Old

LANDS AGENCY FOR NOTED SAXON CARS

Wm. D. Cartier Highly Pleased With First "Saxon Six"

Wm. D. Cartier, Old Church Building, Gordon and Broughton Streets, has just been appointed distributor for the Saxon passenger cars and the first "Saxon Six" arrived in the city early this week.

In showing one of the Saxon's to a Times representative Mr. Cartier was extremely delighted with his good fortune in securing the agency for this practical car. He said: "Saxon 'Six' has earned its reputation as the practical car because it is so thoroughly practical from so many different standpoints. 'Consider this touring car, for example, it is light in weight, and in consequence is economical on fuel and tires. Yet it is staunchly built, of honest materials, and has no weak spots to cause trouble and expense. A practical combination surely. 'It is mechanically efficient, not only from the standpoint of the Saxon engineers, but in the esteem of most of the automobile engineers in the country who are designing high priced cars practically regardless of cost. 'Inspect the really vital chassis features of the Saxon and you will see that they are strictly in line with the most advanced engineering practice. 'Note the wheelbase, the turning radius, the seating arrangement, the tire size, the flexibility of its performance, the relation of its power to its weight, in fact, check off the various factors that you yourself consider as essential or desirable in a motor car—and then you will see the justice of the name, the practical car. 'Added to these fundamental characteristics, you have all the convenience and comfort that you could ask, with appearance as distinctive as it is pleasing. After reading the specifications of this practical car, turn to the comparative table in the centre of this book for a comparison of Saxon features with those of more costly cars. Then you will wish to ride in the Saxon, to make a critical inspection of its numerous details, and to experience behind the wheel the satisfaction resulting from its six-cylinder smoothness."

FIRST FORD STARTER IS RECEIVED IN CITY

National Motor Co., Local Ford Distributors, Get Sample; Full Supply Later

The first Ford self-starter has been received by the National Motor Company, Yates Street, local distributors for Fords, and the attachment has afforded a good deal of interest. The local agents explain that this is only a sample and an announcement respecting the supply of cars fitted with self-starters will be made as soon as definite information is received regarding shipments. The starter can be attached to any car of this year's model.

The demand for Ford cars has not diminished since the big Spring rush began and the National Motor Company has been fortunate enough to receive a fairly steady flow of shipments.

The man who polishes his car with a rag that gets into the pocket of one of the doors of his machine is apt to be wondering before long how so many scratches came to appear on the varnish.

In some cars the exhaust gases from the engine make riding unpleasant for occupants by swirling up over the rear seat. This condition may quickly be remedied by shaping a piece of tin or other sheet metal into the form of a deflector and clamping it to the end of the exhaust pipe by means of a large hose clamp or similar arrangement. When the outgoing gases strike this deflector, they are thrown downward and outward behind the car.

CARTIER BROS. WILL GUARANTEE ALL WORK

Confidence in Workmanship Enables Jack Cartier to Lay Down Policy

"Our policy now is to give a thirty-day guarantee with every job turned out, and this applies to material as well as workmanship," said Jack Cartier this morning. Mr. Cartier feels that with his lengthy experience in the automobile business he can safely afford to give such a guarantee knowing that confidence can be placed in the workmanship of the men he has engaged in his shop. "When people of moderate means buy cars, especially used cars, they like to feel that any overhauling, repair, painting or adjustments that have been carried out can be relied upon. If we buy cars outright to be placed on sale by us we invariably make it our practice to investigate the car thoroughly; replacing parts, mending the top; making adjustments and fixing up everything that requires attention. In fact we do everything that reasonable expenditure of time, labor and material will warrant in order to make a car well worth the figure that should be asked for it," says Mr. Cartier. "The business in used cars continues brisk and a large number of cars have been disposed of within the past few days."

MANY GIANTS SEEN ON CITY'S STREETS

But Mr. Jameson Is Speaking of Trucks; Embodies Latest Ideas

"Do you notice the increased number of Giant trucks to be seen on the streets these days," asked R. J. Jameson of Jameson Rolfe & Willis, local distributors for Giant trucks, this morning. "Of course there is a reason for this," continued Mr. Jameson. "The Giant truck embodies all the latest improved and successful ideas that have brought motor trucks up to their present-day efficiency. 'With a fixed ideal before it, the Chicago Pneumatic Tool Company, utilizing all the power and resources at its command, has striven to bring out a line of commercial vehicles which would reflect credit upon its builders and make friends for the company. 'Realizing that the value of a motor truck is in direct proportion to the service it renders, neither expense nor pains have been spared to make the Giant a quality truck throughout. Only such units whose high quality has been sustained and which have been tried in the crucible of long and successful experience are used in Giant construction, and prospective purchasers are invited to compare the Giant—unit for unit—with any other truck on the market to-day. 'But there is one feature in which the Giant truck is unique—its operation on low-grade fuels, says Mr. Zbinden. Not only does the Giant get maximum efficiency out of the low-gravity gasoline that is offered to-day, but it operates successfully on mixtures of kerosene or distillate with gasoline, making it possible to reduce the fuel cost as much as 50 per cent. The growing inferiority of gasoline, its rising cost and the possibility of governmental restrictions upon its use, emphasize the importance of this exclusive feature of the Giant line of motor trucks. 'Originally one-ton trucks and known as Little Giants, these trucks are now built in one, two, and 3 1/2-ton capacities and constitute the Giant line. 'The starting motor takes the current from the storage battery through brushes. It sometimes happens that these brushes for various reasons are not making proper contact, and this means more or less failure of the system. When trouble arises in this system these brushes should be carefully examined. Again, one of the cells of the storage battery runs down before the others, which are therefore called upon to do more work than they are able to handle. Also a grain of grit or foreign matter may get between the contact points of the switch and may make a world of trouble before it is discovered and dislodged."

Maxwell

—a car having every luxury except one

THAT luxury is brutish bigness, which means weight, which means a large gasoline tank and filled often, and large tires, and several sets a year.

Maxwell is neither a big car nor a small car. The biggest car made is less than 4 feet longer, and costs around \$15,000 to buy and \$7,000 a year to run.

Most cars are just a foot or a few inches longer. And others are some smaller—shorter, lighter, less roomy, and hence lack the luxury of a Maxwell.

Nor do they cost, on the average, less to run. Gas mileage is very nearly the same. Tire mileage is very nearly the same.

But where Maxwell earned its crowning reputation has been its ability to run and run and never quit. That means repair bills are amazingly low.

You therefore never get mad at a Maxwell—it's the best friend your pocketbook has. And when you stop to think of all those little points of luxury in a Maxwell you're almost sure to whip out your check book and write a check for one.

The 300,000-all-alike idea behind the Maxwell thus, you see, is sound.

NEW VULCANIZING METHOD A WONDER

Goodyear Engineer's Discovery Greatly Increases Tire Mileage

Tires have become so vital an element of truck tire service that their every development in worthy of careful note. Truck users are now coming to realize that more depends upon the tire equipment that has heretofore been recognized. There has been rapid progress in perfecting truck tires.

"In the solid type of tire," says E. S. Wilson, manager, Solid Tire Department, The Goodyear Tire & Rubber Company, Akron, Ohio, "the S. V. tire has taken a leading position. We have been pleased and astonished by the mileage records which have been achieved in all classes of service.

"Not the least factor in our success with this type of tire is the manner in which we have been able to press it on to the steel rim so firmly and securely that base separation has become practically unknown.

"During the early days of solid tire manufacture there was no known method of successfully vulcanizing soft rubber to steel. Exhaustive experimentation, however, soon showed that both soft rubber and steel could be successfully vulcanized to hard rubber. So the solution of the difficulty resolved itself into the use of a strip of hard rubber between the soft rubber tread of the tire and the steel base of the rim.

Use Two Layers.

The Goodyear Tire & Rubber Company has carried this idea even further. Our tire engineers discovered that a much stronger base union could be obtained through the use of two layers of hard rubber instead of one. They produced a strip of hard rubber that would unite chemically with steel and another strip which would unite chemically with the soft rubber, and finally, these two strips effect a chemical union between the soft rubber and steel.

"This obviously ideal method of construction has worked out with wonderful success, mileages of twenty and thirty thousand being common, and even forty and fifty thousand being reached in cases where the tires have received adequate care and attention.

"Our record along this line, of course, is a source of great satisfaction to us, as it must also be to the many thousands of motor truck users who have secured economical operation with them.

"In backing up this tire we have made it a point to insure service, and service means presses, besides other things. We have installed presses at all our branches and in other cities at strategic points, so that truck owners desiring the pressed-on type of tire may be taken care of promptly.

Victory for Tire.

The great victory won at Indianapolis by Howard Wilcox in the 500-mile race, was also a triumph, in fact the greatest ever achieved upon a race track for the Goodyear tires, for Wilcox drove on Goodyears and at the end of the terrific grind had no tires left.

The Indianapolis course is the most exacting track in the country on tires, as it is of brick construction, which does not permit the flexibility

DEVASTATED FRANCE NEEDS MANY AUTOS

French Officer Tells of Opportunity Within Reach of Canadian Factories

While speaking to a large audience at the Parliament Buildings Wednesday night Lieut. Paul Balbaud said that the most important help that Canada could give France at the present time was in motor vehicles. "It is the one and principal way of taking from Paris to the devastated areas the things which the people require to make their homes again," he said.

Lieut. Balbaud vividly described the scenes of devastation inflicted on the brave people of France by the ruthless Hun. He explained the French love of home and the innumerable and fragile scenes of families being driven from under the roofs where they had lived for so many years, and to which they had become so deeply rooted.

Thousands of these people were seeking out the spots where their former homes once stood and are determined to rebuild them to make them seem just what they were before the terrible visitation of destruction by the Hun came upon them.

To do this requires an immense amount of material. Canada will have her full share in supplying many things necessary to restore to people of France to their former home-like conditions, which the French are anxious to accomplish with as little delay as possible.

The French railway system, when fully reorganized, will be for a long time incapable of handling the situation and at all times will be incapable of rendering service in many of the motor trucks that are being used in such a way, says Lieut. Balbaud, and it is necessary that France should recoup as quickly as possible. Only with the assistance of motor cars and motor trucks can this be accomplished, and therefore he feels that Canadian factories have a great field before them in France alone, apart from the many other countries which are in need of assistance along the same line.

To test a wheel for loose bearings, jack it up and take hold of top and bottom spokes, pulling and pushing in various directions. If no looseness is shown in this way, try hitting the hub to see if there is play in that direction. If any play is shown, the bearing must be taken up.

Horseshoe nails may be made into very satisfactory battery connectors by soldering about a foot of insulated wire one nail on each end. The nails are then driven into the battery post under the connector. If the nails get dull or bent they may easily be sharpened or straightened again.

WILL HOLD BIG CONVENTION AT DUNCAN JUNE 25

All Motorists of Vancouver Island Will Get Together

BIGGEST AUTO EVENT IN ISLAND HISTORY

The Board of Governors of the Island Automobile Association will meet at the Empress Hotel at 8 o'clock tonight for the purpose of preparing important resolutions and other matters affecting the motorist which will be laid before the big convention to be held at Duncan on Wednesday next. President Charles H. French is back in the city and will occupy the chair at to-night's meeting.

The convention is at Duncan and will begin at 4 o'clock in the afternoon. It is optional with the motorist what time they leave Victoria, and it is anticipated that small parties will leave at different hours. The suggestion is made that instead of crowding on the highway and taking the other fellow's dust, small parties should start out at intervals, beginning early in the morning and taking roadside lunches or else taking the trip by easy stages, and lurching at Duncan.

Greatest on Island.

The Duncan meet promises to be the biggest meeting of automobile owners ever held on Vancouver Island. The local club has issued invitations to Hon. John Oliver, Premier of British Columbia; Hon. Dr. King, Minister of Public Works; A. M. Johnson, Deputy Attorney General; A. E. Foreman, Provincial Engineer; J. Burford, head of the United States Immigration Department; Customs officials; Chiefs of Police Langley, Dryden, Palmer and Symes and representatives of the local daily newspapers.

The club officers are approaching all members and friends with a view to having them take part in the big procession over the Malahat. It is not intended to let any member say: "Oh, there will be plenty of others going. I'll stay at home." That is the fatal stand taken on so many occasions when failure comes of what should otherwise have been a big success, one of the members points out.

The object of the convention is to get all the motorists of Vancouver Island together for a heart to heart talk. The Victoria and Nanaimo clubs will have some important suggestions to make relating to the welfare of motorists and all other districts on the Island will also be represented.

Nanaimo has a very successful club with 450 membership, and they will have a large attendance at the convention. The Victoria club is anxious that this city should not be outdone by the coal city in point of numbers and therefore every member who can possibly get away is asked to reserve June 25 for the purpose of attending the convention.

CARAVAN OF TRUCKS TO TOUR THE STATES

Seventy-five Vehicles Used to Educate Farmer; Tractor's Long Tour

Plans are under way for what is probably the most extensive demonstration of the truck to the farmer ever undertaken. The plan is to start from Chicago in July with a caravan of some forty or fifty trucks, all designed for farm use. In addition to these there will be ten or twelve accessory trucks, showing tires and other truck accessories. It is not unlikely that there will be close to seventy-five vehicles all told.

The itinerary is being worked out and will cover Iowa, Missouri, Illinois, Wisconsin, Minnesota, North and South Dakota. Approximately two months will be devoted to the trip. Advance publicity men will be sent out and the tour staged like a circus. The purpose is to confine the tour to small town dealers and farmers exclusively. The object is not so much to make dealers as it is to convince the farmer that the truck has come to his assistance as a hauling proposition.

Another unusual tour is the transcontinental trip now being made by a tractor which left New York bound for Los Angeles recently to demonstrate that a tractor can be used on the road also when properly equipped. The machine is fitted with road wheels and solid tires. Attached to it is a trailer which carries a three-bottom plough and a set of wide-cleated tractor wheels for use in ploughing and other farm work. The tractor will stop at the national tractor demonstration at Wichita on its way to the Pacific coast. A crew of former Army men will pilot the tractor-in-shoes.

A rag or waste that is carried in this fashion is sure to accumulate dirt and grit. The only thing to polish a car with is clean cotton waste. This should be kept in a box in your garage where it cannot gather dust and dirt.

Aylmer Maude, the noted English biographer of Tolstoy, is a Y. M. C. A. worker in Northern Russia at present.

Canada and Shipping FROM EXPERT'S OPINION

The "Daily Express," of London, England, recently under the heading of "Inter-Imperial Shipping: Plea for Building Under State Aid and Control," contained a statement from "a prominent Canadian business man who just arrived in London." He stated that in his opinion the vital question of the moment was tonnage, and that Canada was unable to send to Europe all the urgent materials she can supply for purposes of reconstruction if shipping is not available. He added:

"As a nationalization of shipping would mean England's doom as a merchant marine power, we must look to some other method of control such as subsidy or reduced taxation for ships trading inter-imperial, but in order to give effect to our imperial program something more solid than high-sounding but empty copy book platitudes such as 'Trade follows the

GUARD AGAINST FIRE.

When Forests Burn, Taxes Increase.

A HOOSIER HOLIDAY

Once more the great automobile sweepstakes have been held at Indianapolis, in the presence of about 125,000 cheering enthusiasts. The casualties were only three killed and two severely injured. Says a news report:

"The race was one of the most sensational run here. Broken steering knuckles, the loss of wheels, two cars turning over without injury to their occupants, and the fatal mishaps kept the crowd on edge from start to finish.

The accident to Thurman did not cause the drivers to diminish their speed. It was not long afterward that Leccoq skidded and turned over. The gasoline tank exploded, covering him and his mechanic with burning gasoline; strapped in their seats, they were burned beyond recognition. In the meantime the rest of the contestants continued their mad whirl around the track. The flaming gasoline was picked up by some of the racing cars and carried to several parts of the Speedway."

But this is nothing to the old strong-headed days when a race was considered complete unless some car leaped the wall while going at a hundred miles an hour and ploughed its way through crowd. Thus the man who paid for his ticket bought with it the certainty of seeing someone killed, the probability of seeing some fellow-onlooker killed, the possibility of seeing his near neighbors killed, and a pleasantly utilizing chance of being killed himself. The blasphemous Hoosiers have read with proper disapproval of Rome and her gladiators; they look down upon the bullfights of Spain. And no wonder; to a race hardened to such tempestuous entertainment the mere spectacle of a Christian engaging a lion would have been dull. After all, Indiana is a dry state, and while presidential elections furnish enough excitement while they last, there has to be something to kill time in the off years. — New York Times.

The Benjamin 92 Two Way PLUG

IN all McClary's Models, unusual conveniences are found. The exposed surfaces are covered with hard-baked black enamel, which needs no black-leading. Every part of McClary's Gas Ranges, including inside of the oven, can be cleaned with a damp cloth. Many types to choose from.

DR. D. J. FRASER, ONCE FELLOW STUDENT WITH DR. CLAY, VISITS HERE

TWENTY-FIVE YEARS SINCE INDUCTION

St. Andrew's Church to Commemorate Rev. Dr. Clay's Anniversary

On June 21, 1894, Rev. W. Leslie Clay, D.D., was inducted as pastor of St. Andrew's Presbyterian Church. The twenty-fifth anniversary of the event will be commemorated at the church by special services on Sunday at which Principal Fraser of the Presbyterian College, Montreal, will preach. There will also be special music at both services.

The celebrations will be continued on Monday evening by a congregational social commencing at eight o'clock at which representatives of all the churches in the city will participate. On the following Sunday, June 29, Rev. John Mackay, principal of Westminster Hall, will conduct the services at the church.

It was on the evening of June 21, 1894, that Dr. Clay was inducted as pastor of St. Andrew's Presbyterian Church. The church on that occasion was prettily decorated and was well filled with members of the congregation. The members of the Presbytery present were the Moderator, Rev. Mr. McRae, of Nanaimo, Rev. Mr. Campbell, A. B. Winchester, Mr. Morrison, and D. McMacrae, clerk of the Presbytery and T. Bethune, elder. Mr. Clay having answered the usual questions was inducted by the Moderator.

COLUMBIA AUXILIARY HELD BUSY SESSION

Out-of-Town Speakers at Meeting of Diocesan W. A. Yesterday

Under beautiful weather conditions the members of the Diocesan Board held their monthly meeting yesterday afternoon on the lawn in front of Miss Beedham's residence, Mount Tolmie.

There was a very good attendance, Mrs. Nelson taking the chair for the first time as Diocesan President, and Mrs. Schofield conducting prayers at the afternoon session. In response to a message of regret from Miss Turner at being unable to attend the meeting on account of Dr. Turner's serious illness, the Secretary, Miss Rye, was instructed to convey the deep sympathy of the meeting to Miss Turner in her anxiety.

Special Speakers.

Miss Syers from the Alert Bay Industrial School for Girls, gave an interesting account of the work and need of the Indian scholars, especially after they return to their homes, where heathen influence is strong to undo the good work done at the school. On a motion moved by Mrs. Quinlan and carried unanimously it was decided to appeal for simple furnishings for a "den" for the teaching staff. Mrs. Quinlan and Mrs. Hiscocks were appointed to receive gifts of furniture, pictures and cash for the purpose.

At the afternoon session, Miss Campbell from Bombay, gave a deeply interesting account of the work among women and girls in India, and Mrs. Sidney Houlton, of Calgary, gave an interesting little talk. Rev. E. Moore, Rector of St. Luke's Cedar Hill, delivered the noon hour address, and Mrs. Schofield outlined the part to be taken in the Churches' Forward Movement by the Women's Auxiliary, and urged the forming of prayer circles.

Social Welfare.

In response to recommendations received from the Dominion Board of the W. A. that a definite study should be commenced of the Social and Welfare Movements of the Day, the Board endorsed a programme that had been drawn up by the executive, amplifying the recommendations, and outlining what should be the basis of work for the coming year. The meeting also endorsed the appointment of Miss Rye as Social Service Secretary. A sum of \$25 was voted for the Local Council's Girls' Home at the appeal of Mrs. Schofield, and \$35 was voted in response to an appeal for a sick missionary who is in need of help.

New Branches.

The organizing secretary, Mrs. Dickson, reported on her recent tour of the Northern Deanery which had been most successful, and had resulted in the formation of new branches at Ladysmith and Cedar. The Oriental Secretary announced that through the kindness of Mrs. Sayers, the little members of the Chinese kindergarten are to celebrate their school term closing by a picnic at her home on Mount Tolmie on Saturday, June 28. The next board meeting will be held at St. Jude's, September 19.

To-morrow's Services in... The City Churches

ANGELICAN CHURCH TO HAVE SUMMER SCHOOL

Interesting Course Arranged to Take Place Here in Mid-July

The Anglican church has completed arrangements for holding a summer school along the lines of that so successfully carried out last year. St. George's School, Rockland Avenue, will be taken for the week of July 14 to 19. Proceedings will commence with a "welcome" meeting on Monday, July 14 at 8 p. m., when the Bishops of Columbia, New Westminster and of Victoria, Hongkong, will speak. For the next four days lectures will be given on various phases of church activities, and opportunities for informal discussions on matters of interest and importance to church workers will be afforded.

While the school is intended primarily for members of the Anglican church, a welcome will also be given to members of other Christian bodies who may wish to attend. Application for membership should be made to Rev. H. T. Archbold, 434 Quebec Street, Victoria.

The daily programme will be as follows:

7.45 a. m.—Holy Communion.
8.45 a. m.—Breakfast.
10 p. m.—Lecture on "Missions."
11 a. m.—Lecture on Sunday School work, Rev. R. S. Mason, of Toronto.
12 noon.—Devotional address, Rev. H. T. Archbold.
1 p. m.—Dinner.
2 p. m.—Group conferences on Sunday school and W. A. work.
3 to 5 p. m.—Recreation.
6 p. m.—Supper.
7 p. m.—Evensong.
7.45 p. m.—Address on Social Service work.
9 p. m.—Lecture on Book of Ezekiel, Dr. H. H. Gowen.

WILL DELIVER A FREE LECTURE ON CHRISTIAN SCIENCE

A lecture on the subject of Christian Science will be delivered in the Royal Victoria Theatre at a quarter to three to-morrow afternoon by Mrs. Blanche K. Corby, C.S.B., a member of the Board of Lectureship of the Mother Church, the First Church of Christ, Scientist, in Boston. The lecture will be held under the auspices of the First Church of Christ, Scientist, on Pandora Avenue. It is the practice of the Church to hold lectures at intervals on Christian Science by authorized speakers. Arrangements have been made for a verbatim report of the meeting to be published in the Monday issue of The Times.

Chaplains Being Demobilized

Of 3,000 English army chaplains with the British forces, 820 have now been demobilized; of other denominations, Roman Catholic, 198; Presbyterian, 113; Wesleyan, sixty-two; Congregational, Baptist, United Methodist, eighty-five; other denominations, eleven.

LOCAL DELEGATES TO BAPTIST CONVENTION

Victoria Churches to Be Represented in Vancouver Next Week

The twenty-third annual session of the British Columbia Baptist convention will be held in Ruth Morton Church on Tuesday and succeeding days. In connection with the convention the Baptist woman's missionary society will hold its fifth annual gathering.

The convention proper will convene on the evening of Tuesday when an address of welcome will be tendered the delegates by Rev. William Litch and the response given by W. C. Kelly of West Sumnerland. The president's address will be given by Rev. David Long of the Grandview Baptist Church and Rev. Walter Daniel, missionary superintendent, will also give an address.

Victoria Delegates.

Victoria delegates to the convention will include the following representatives of the First Baptist Church: Rev. P. Clifton Parker, pastor, Mrs. Spofford, president of the Ladies' Aid, Dr. Russell, vice-president of the convention, and Mrs. Russell, Mrs. A. Hendry, who is to give a paper on "Glimpses of Our Work in Foreign Fields." Rev. Edgar Russell, Mr. and Mrs. W. Dinmore and Miss Edna Middleton, Emmanuel Baptist Church will be represented at the convention by the pastor, Rev. Wm. Stevenson, Mrs. Eilers, Wm. Marchant, R. B. Elliott, W. E.

PARADE SERVICES AT CHRIST CHURCH

Bishop of Hongkong Will Preach at Cathedral To-Morrow

Two city organizations will parade to Christ Church, Cathedral to-morrow morning. Members of the local division of the St. John Ambulance Brigade will attend the eleven o'clock service in a body. The local members who rendered valuable services to soldiers and civilians in the district during the war will be joined in the parade by some who enlisted, serving overseas as V. A. D. workers, and have since returned to the city.

The Victoria members of the Boys' Naval Brigade will also hold a church parade to-morrow to the Cathedral, under Capt. Jones Evans. The sermon at the parade service will be preached by the Very Rev. Dean Quinlan.

In the afternoon the Rt. Rev. Dr. Lander, the Bishop of Victoria, Hongkong, will confirm a number of candidates at a special public service at four o'clock.

Cello and Organ Recital.
An organ and violin recital by Miss M. Scruby and J. E. Watson, Mus. Doc., will be held after the service, at 7.30. Miss Leah Tomkins will contribute a vocal solo.

TO-MORROW WILL BE SAILORS' SUNDAY

Special Services at Some Churches; Boys' Naval Brigade Parade

To-morrow will be the Sailors' Sunday, and it will be commemorated in a number of city churches.

An appeal has been made for the interests of the sailor. The application for assistance is made both on behalf of the naval and the merchant seamen of the twin services.

Councillor Peter Wright, during his recent visit to Victoria, showed the splendid work of the merchant marine in the war, and how the merchant service had rendered possible the winning of the war by transporting men, munitions and food in face of war perils added to the eternal peril of the sea.

The appeal here naturally gains impetus from the demands to support two local institutions, the "Seamant Seamen's Institute and the Sailors' Club, Esquimalt, for which the Navy League is acting.

On Sunday the Boys' Naval Brigade will parade in full dress uniform, and attend divine service at Christ Church Cathedral in the morning. Captain Jones-Evans will command the detachment. Members who belong to the Catholic faith will attend service at the Roman Catholic Cathedral.

G. R. Welch is the secretary of the new Industrial Y. M. C. A. among the logging camps at Myrtle Point, B. C.

MUSIC IN THE HOME

Her choice among Gifts
Her choice among Pianos

WOULD undoubtedly be a piano—for what other wedding present is there that could possibly mean so much in true and permanent enjoyment?

WOULD undoubtedly be this little gem of an instrument, the Nordheimer Apartment Upright—for what other pianoforte could so completely fulfill her idea of what is required to "her home beautiful"?

She knows it—she will fully endorse the selection of it—she admires it as much for its artistic design as for its notable tone.

Its tone is that of a Grand, though its case is that of an Upright. \$465, in dark shade of rich, old mahogany, or fumed oak. Transportation added west of Great Lakes.

CLUB HONORED NOTED WOMAN SONG-WRITER

Mrs. Carrie Jacobs Bond Entertained by Vancouver Musical Club

Mrs. Carrie Jacobs Bond, the eminent song-writer, was the guest of honor at a reception given by the Vancouver Women's Musical Club on Monday.

Mrs. Bond is a native of Wisconsin and is the daughter of Dr. Hannibal and Mrs. Jacobs, of Janesville. She married in 1857 and was widowed in 1895. In 1903 she composed seven songs, and since then has composed some fifty or sixty others. Her home is now in Chicago.

Mrs. Bond has now gone north to Alaska and later in the summer will proceed to Lockport, there to attend a conference of American composers and musicians for the promotion of American music. At this gathering, Mme. Schumann-Heink and Catherine Howard, of the Metropolitan Opera Company, have arranged to sing songs by Mrs. Bond and other American com-

EX-SOLDIER SOLOIST

Ernest Patch to Sing at First Congregational Church To-morrow Evening.

Ernest Patch, who returned this week from overseas, will be the soloist at the evening service to-morrow at the First Congregational Church. He will sing "The Lord is My Light" (Ahlbuser).

On the following Sunday evening, June 29, the choir of the church will give the last of this season's monthly recitals, at which time the major portion of Gaul's cantata, "The Holy City," will be given under the direction of Frederic King. Sidney Rogers, solo cornetist, will play the well-known setting of Stephen Adams' "Holy City." Miss Louise A. de W. Moore, the organist, in addition to accompanying the musical numbers, will play Gaul's "Contemplation" and "Adoration."

For the first time in the history of English bell-ringing, ten army officers at St. Peter's, South Crofton, rang a peal of Grand sire Caters. They are members of the ancient Society of College Youths, which was founded in 1637, and is the oldest ringing society. The peal consisted of 5,261 changes, composed for the occasion by Lieut. E. Maurice Atkins, R.E.

MRS. VAN OGLE ON "MODERN OPERA"

Summer School at Washington University to Include Lectures on Music

Victorians who last year heard Mrs. Louise Van Ogle, of Seattle, lecture on "Russian Folk Songs," will doubtless be interested to learn that she is conducting a series of lectures on modern opera at the University of Washington. The summer course at the University opened on Tuesday last.

Montezzi's "The Love of Three Kings" will be the subject of Mrs. Van Ogle's first lecture; then will follow the order as stated here, "Khovantchina" by Modest Moussorgsky; Zandonai's "Francesca da Rimini"; Grandjean's "Goyascas"; and Rimsky Korsakoff's "Invisible Town of Kitesch." Each of these operas have recently been presented in New York with marked success.

In connection with the regular university course, and for students only, Mrs. Van Ogle has prepared and will shortly deliver a series of lectures on Russian music, in which the works of Glinka, Borodin, Moussorgsky, Tchaikovsky, Rimsky-Korsakoff and others of the Muscovite school will be considered.

SINGING IN SCHOOLS HAS PROCEEDED THIS YEAR SATISFACTORILY

Children Enthusiastic, Though Competition Has Been Discontinued

Though last year the Paterson Shields for competition in singing among all Victoria public school children was abolished, T. W. Paterson, the former Lieut.-Governor and his wife, the donors of the trophies, after visiting various schools express themselves as thoroughly satisfied that the quality of the singing, and the enthusiasm with which the children sing has not declined.

The coming of the school year's end makes it possible to compare the singing with that of former terms. It is with satisfaction that H. J. Polard, the vocal instructor, regards the results of his work. The art of musical expression has more than ever proved more popular than ever before with the children. Those who leave the public schools this year will carry through life valuable knowledge of music, knowledge which all their lives will give them an intelligent and enjoyable appreciation of harmony.

TO FOUND SCHOOL FOR BRITISH OPERA

Young English Conductor Appointed to Covent Garden; National Music Movement

London.—An announcement of great interest to the musical world is that Sir Thomas Beecham, who is now the leading personality in British music, has appointed as his successor in his musical enterprises Albert Coates, the brilliant young English conductor, who for the past few years has conducted the Imperial Opera at Petrograd.

National Movement.

Mr. Coates, who recently returned to England and has been delighting concert-goers by his fine conducting at Queen's Hall, is full of enthusiasm at the prospect of taking a prominent part in our musical life.

"I can assure you," he said to a Daily Chronicle representative, "I am amazed at this big national movement in music in England. What a difference when I was here last to what I see now—everywhere concerts and opera drawing crowded houses."

"Yet, in one way, I am not surprised. For I always felt that my country had that latent gift for music and its appreciation, which it is now developing. And I may say that I had always hoped to play a part in this movement. Therefore, I always made my contracts in Russia yearly ones only, feeling that this movement must come."

Tribute to Pioneer.

"I should like to express my admiration of Sir Thomas Beecham, who is the pioneer and leader of this movement. I am pleased and proud at the prospect of working with him, and to place at his service my experience as an operatic and concert conductor."

"The outstanding feature of English musical life to-day is undoubtedly the love of opera. This especially appeals to me, and I want to carry it much further. We ought to have more operas by English composers."

"I am going to see if I can find any. I earnestly hope our composers will work together and try to get a school of native opera."

"Already since I have been here I have found a new opera by one of our most brilliant men, Cyril Scott, which I hope we may see produced soon."

Mr. Coates referred to the propaganda work for British music he had done in Petrograd in recent years. "I frequently gave works by Elgar, Scott, Grainger, Dunlop, Stanford, Vaughan Williams and others, and always their music was greatly appreciated by the Russian public."

A Witty Translation.

Finally Mr. Coates was persuaded to talk about conducting, his own particular gift in music.

"I always loved it from the first, and it was the proudest moment of my life when I first was appointed conductor of the opera at Elberfeld. When I first went to Petrograd, by the way, I could not speak Russian, and at my first rehearsal, I wanted to tell the orchestra that I wished a certain passage to be played roughly or uncouthly. The leader was a Frenchman, and volunteered to translate for me. He wittily said, 'Gentlemen, the conductor wants you to play as you usually do.'"

New Songs Just Published.—Among the new songs for male voices just published by J. Fischer and Brother, New York, is a charming little ballad by Muriel Pollock, called "Kiddie Mine." The lyric is by Louis Gruenberg, the well-known harmonicist, who has added the song to his concert repertoire. Another very beautiful number is "Evening," by J. Bertrand Fox, reflecting the theme of Milton's "Paradise Lost." This composition is also arranged for women's voices.

AUSTRALIA'S STATE-AIDED ORCHESTRA

Music lovers throughout the Empire writes The Daily Chronicle Melbourne correspondent, will be interested in the establishment in the Mother Australian State of New South Wales of a State Orchestra. Perhaps "State-guaranteed" Orchestra would be the more correct designation to apply to the orchestra, the benefit of State recognition and assistance.

What has happened is that this month the State Cabinet, acting upon the advice of Mr. Henry Verbruggen, the director of the Sydney Conservatorium of Music, has decided to guarantee against financial loss a series of concerts to be given by special symphony orchestra of over seventy performers. The admission charges for the concerts will range from the democratic 6d to the modest 3s per seat.

To Cost \$11,600.

It is estimated to cost about \$11,600 to keep the orchestra efficient—as regards remuneration to performers, material, personnel and programme. Mr. Verbruggen is optimistic enough to believe that the support of the general public, as well as that of the music-loving world, will be so great that only a small subsidy will be required from the pockets of the taxpayer in this "Never Never" of the bush.

The first concert was held in Sydney two days ago and was a great success from every standpoint. The State Orchestra is to consider the layman as well as the professional or amateur musicians who swear by classical music alone. What is described as "beautiful, appealing, exhilarating music of a light character" is to be rendered, besides the famous standard works of the immortals.

The entire State experiment is being anxiously watched by musicians throughout Australia. If the Sydney Orchestra "wins through," Melbourne and Brisbane will soon follow the example set by Mr. Holman, the brilliant Premier of New South Wales.

Six concertos by John Stanley, organist of the Temple, London, who died in 1786, have been found under the platform at Chichester Assembly Rooms, marked "Chichester Concert, 1782."

CHORAL SOCIETY PICNIC

The Choral Society picnic to Cordova Bay last Saturday was quite a success, about 100 persons being present. Sports of all kinds were held under the able direction of Dr. L. F. Houghton, Mr. Scrivener and Mr. Dunn. Dr. Houghton, the president, presented the prizes at the conclusion of the sports in the usual jovial manner. Tea was served later. The committee wish to thank the following for their contributions toward the picnic: H. H. Malkin & Co. for tea and coffee; Dr. Houghton, Mr. J. G. Brown, Mr. Macey, Mr. Sprague, Mr. Griffiths, Mr. Melhuish, Mr. Radbourne, Mr. Scrivener, Mr. Dunn, Mr. Hardy for cash contributions; for prizes Mr. L. Plumb, Mr. Fowler, Mrs. Radbourne and Mrs. Witty.

Dame Melba's Birthday.—Dame Nellie Melba's birthday was celebrated by a reception at the Gullhall School of Music, London, where she was photographed in a dozen different poses. She shook hands with some hundreds of worshippers, she listened genially to several talented students of the school (who showed no little courage in singing before one so famous), and she strove in emulation with Mr. Langdon Ronald in returning the elaborate compliments he paid her—"the most worshipped woman in the world" was one of his phrases. Urging the students to work hard, she gave an example from Mr. Ronald's career, dating from their early days at Covent Garden. Being required to accompany her in a rehearsal of Massenet's "Manon," he sat up all one night and appeared at her house at midday knowing two complete acts of the opera by heart.

Sir Edward Elgar, the distinguished English composer, is recovering from a long and serious illness, and has resumed composing. His last notable work was a violin sonata, which has recently been played in London with decided success.

MUSIC TEACHERS TO HOLD CONVENTION

Advance tones of eloquence were heard last Wednesday in the Commons of the university campus, says The Seattle Post-Intelligencer, when at a meeting of many of the leading music teachers of Seattle and the music faculty of the university, plans were laid for a music convention to be held in Seattle July 2 and 3 at which time the teachers will urge a closer association between the artistic and industrial and commercial elements of city life. The meeting Wednesday partook the nature of an "informal" conference around a luncheon table and was the result of the suggestions of David Sheets Craig.

It was the sense of the meeting that public interest in music must be aroused and conserved, music's value as a civic asset must be manifested, and more intimate and cordial relations between the various factors of city life must be established before the music teacher, the music pupil and the professional executant are permitted to serve the community properly.

Community singing was discussed, the symphony orchestra was considered and expressions of opinion were made as to the best means to be taken to place the symphony in the position of popularity that its merits deserve. To awaken public interest in this great organization was deemed the problem of biggest and most immediate importance.

These and other topics were discussed and a tentative programme for the forthcoming convention was assembled. A future meeting will determine on a definite programme which will then be made public.

Wednesday's meeting was declared a success in the fact that enthusiasm was aroused and active work laid out for the convention next month. This will in no respect conflict with the

regular annual convention of the Music Teachers' Association, but will supplement them and reinforce their good work by attracting additional attention to the number of students, teachers and artists that are beset to the public a message of beauty the value of which is too often lost sight of in a life filled with material endeavor and industrial effort.

Leopold Godowsky, the famous pianist, is conducting a master-class in Seattle during the next few weeks, commencing early in August. Mr. Godowsky last year conducted one of these classes for players and auditors at Portland, and so great was the success of the venture that very shortly he was in great demand for similar classes in several parts of the West, including San Francisco, where the course was very popular.

The Government of Japan is establishing another music school for the promotion of civilization in Japan. This may surely be counted a proof of Japan's awakening in the realm of music.

ANNUAL SPORTS AT ST. GEORGE'S SCHOOL

Races For Parents Also; Miss Kona Miller Wins Championship

The annual sports of St. George School, held yesterday afternoon, were watched by a large number of interested spectators. Events for the parents including an old girls' race and a basketball game between the parents and the school team were arranged.

In "Fathers' Hairdressing Competition" competitors were allowed to choose their subject from among the girls. Mrs. Schofield made decisions as follows: 1. Mr. Officer; 2. Mr. Summerhill; 3. Mr. Farmer. "Old Girls' race—Miss Cicely Vincent. Mothers' race—1. Mrs. Maclean; 2. Mrs. Hedley; 3. Mrs. Barber.

The day's sport concluded with a ten-minute basketball match, Parents vs. first team. The latter won, 5-4. **Mona Miller, Champion.**

Examinations commence at St. George's School on Monday. On Wednesday there will be drill display and medal competition, commencing at 7 o'clock. Captain Ian Sinclair judging.

A FORTY-NINE POUND SALMON FROM THE BREAKWATER

Gunner H. Barker made profitable use of a couple of hours' relief from duty with the R. C. G. A. at Work Point last night. He had time for one hour's fishing at the breakwater and reports the landing of a forty-nine pound salmon as the result. The fish, he states, four foot long and about twenty-eight inches in circumference. He lost his gaff in the attempt, and had an exciting half hour's struggle before he was able to land it.

RUGGED FIGHTERS ON TO-NIGHT'S CARD

Two Veterans in Main Go; Lineham Matched With Jessup

Although entries from Nanaimo were not forthcoming as anticipated for the V. I. A. A. boxing tournament at the drawn up looks like providing several good scraps. The main bout between Billy Sneddon and Roy Baker, two old rivals who have both done a lot of fighting at army tournaments overseas, is being looked forward to with interest by the fight fans. Baker has shown that he is a hard scientific fighter, and although Sneddon has not made a public appearance since his return, those who have seen him working out declare he is a rugged scrapper and delights in a strenuous mill.

Lineham, who has run right through with a succession of victories since his first blossomed out under the instruction of the V. I. A. A. club, is matched with Percy Jessup. Lineham packs a knockout in either hit, and his style of fighting has made him one of the most popular ringmen in Victoria today. Most of the men he has been matched with so far have been ready for the corner long before the last sound of the gong, but Jessup is claimed to be one of the toughest men he has been matched with to date.

YARROWS' NINE WILL FIGHT TO THE LAST

Manager Beck Signs New Players and Arranges Regular Workouts

Reverses suffered on the Royal Athletic diamond in the early stages of the race for the city league pennant have not taken the heart out of the Yarrows Nine, and Manager Beck announces that he will have a team fighting for the rag until the end of the season. Several changes are being made in the line-up and Mr. Beck has one or two players in view whom he believes will turn the team into an aggregation that will soon be creeping up the league ladder.

Steady Practices.

Regular practices are being arranged and an invitation is extended to all unattached players to work out with the regular members of the team at 7 o'clock on Sunday morning at ten o'clock. Evening practices will be held during the week.

THE COWICHAN REGATTA

Seattle yachtsmen have been extended an invitation to attend the annual Cowichan regatta at Cowichan. The big event has always been the long distance sailing race for the Buscombe challenge cup, in which a number of Seattle boats have competed in past years.

Philadelphia, June 21.—Miss Molla Bjurstedt, for four years champion, went down to defeat yesterday in the semi-final round of the 52nd Annual Women's Tennis Tournament at the Philadelphia Cricket Club. She was defeated by Miss Marion Zinderstein of the Longwood Cricket Club by the score of 4-6, 6-1, 6-2.

IN MAIN EVENT

BILLY SNEDDON

Who will meet Roy Baker, an old ring rival, in the main event on the V. I. A. card at the Crystal Theatre to-night. Both boys are returned men and Baker is getting a hope realized which he expressed in a letter from Germany when he said he would like to meet his old ring partner in a local circle again.

SIX MORE DAYS TO ENTER FOR CARNIVAL

Entries for Dominion Day Sports at the Gorge Close Next Friday

Jerry Welburn, who is receiving entries for the Citizen's Regatta and the Gorge on July 1 sends out a reminder that the entry list is open for the different events staged. He points out that there is less than a week left before entries close and urges all intending competitors to notify him at 745 Yates Street of the events for which they wish to enter.

Must Be Registered.

Competitors must be registered with the B.C. branch of the Canadian Amateur Swimming Association of which George Stott of Victoria was recently appointed president, but need not be members of any swimming club, except for the championship events. No unattached swimmers are allowed to compete in the title races.

Mainland Competitors.

With the Vancouver competition keen races are assured in the canoeing and rowing events, and this year marking the return of championship events for the first time since the war, the 449 yards senior provincial championship swim, the 440 ladies' championship, and the relay championships of British Columbia both for ladies and men are expected to draw well.

The Events.

For the information of those who have not received a programme the swimming, diving and water polo programme is as follows, canoe and rowing events being in addition to those given below: 50 yards, girls 13 and under; 60 yards, boys 15 and under; 50 yards, boys 15 and under; 50 yards senior championship of British Columbia; 449 yards ladies' championship of British Columbia; Relay championship of British Columbia; Water polo; Diving (one plain and two fancy dives); 50 yards, ladies, open; 50 yards, open; 100 yards, breaststroke, open.

STRIDING LOGS IS ONE OF THE BEACH SPORTS

Fowl Bay is one of the most popular of the city beaches with the holiday makers whose time is too limited to spend much of the time at their disposal in getting to their destination. An auto leaving the city arrives at the bay within about half-an-hour, and there is every facility for the parties and accommodation for those who prefer not to make the usual preparations for the picnic. A commodious bathing house is also a great convenience to water lovers, and the many logs on the beach and in the water help to make a lot of fun in the way of raft making or log rolling. Some of the young holiday makers seem to derive as much enjoyment from striding a log and propelling themselves with a log darning from either side as the craftsman gets from his expensive craft.

COX REFUSES TO INTERFERE ON FIGHT

Says He Would Be Usurping His Power to Stop Willard-Dempsey Go.

Columbus, Ohio, June 21.—In response to a demand made upon him by certain parties that he prohibit the Willard-Dempsey fight in Toledo on July 4, Governor Cox declares that such action on his part would be "usurpation of power."

Under Ohio State laws, boxing contests are legalized under control of municipal authorities. Attempts have failed during the last few weeks to change this state statute, and the governor declares that he has no authority to interfere in the arrangements for the heavyweight contest on July 4.

Presbyterians Hostile.

New York, June 21.—Every state superintendent of the Presbyterian Board of Home Missions is urged in telegrams sent out from the Board's headquarters here to send messages immediately to Congress asking that Governor Cox, of Ohio, be asked to forbid "desecration" of the nation's holiday through the holding of the Willard-Dempsey fight July 4.

QUALICUM CRICKETERS LOSE TO PARKSVILLE

Collapse in Second Innings Helps Parkville to Three Wicket Victory

After Qualicum Hospital had managed to secure a lead of three runs in the first innings, a collapse in the second innings caused them to lose the game against Parkville eleven on Thursday. The Hospital players scored sixty-eight runs in the first stanza against Parkville's sixty-five, but in the second innings the Qualicum players were only able to compile thirty-eight runs. Parkville eleven passed the necessary 106 total by one run with only seven wickets down. E. H. Fisher and Brice Umpired the game. Score:

TITLE HOLDER ADVANCES IN PHILADELPHIA TENNIS

Philadelphia, June 20.—Miss Molla Bjurstedt, the title holder; Mrs. Gilbert Harvey, Philadelphia, and Mrs. George Wightman and Miss Marion Zinderstein, both of Boston, advanced to the semi-final round of the Women's National Lawn Tennis tournament at Philadelphia Cricket Club today. The draw for to-morrow will bring together Miss Bjurstedt and Miss Zinderstein in the lower bracket, and Mrs. Wightman and Mrs. Harvey in the upper half.

GUESSING ON ICE BREAK IS SPORT OF ALASKANS

Nenana, Alaska, June 21.—A. J. Ghezi's faculty for guessing won for him to-day exactly \$1,797. Ghezi guessed to the very minute when the ice in the Tanana River would break up and his prize was the big share of the "ice pool."

Guessing as to the time of the annual ice break-up in the Tanana and Yukon Rivers is as great a sport to Alaskans in the vicinity of those streams as the Kentucky Derby to its most devoted followers. "Past performance" charts in the case of the ice "Derby" consist of the weather tables for years back, giving the times of former break-ups and temperatures. After having made their guesses, a number of men each year camp by the river's edge about the time for the break-up to time it for themselves.

(Other Sport on page 24.)

Dominion—Pauline Frederick in "Paid in Full."
Variety—Mabel Normand in "Mickey."
Romano—Kitty Gordon in "Mandarin's Gold."

ROYAL VICTORIA
Alexander is going!
To-night is the last appearance of this wizard at the Royal Victoria Theatre, where he has been appearing with his shows of wonders for the last week before highly-pleased and mystified audiences.
And to-night's performance promises to be interesting as Alexander is a performer who varies his programme at every possible time, and with his spirit paintings to-night he has stated that he can and will reproduce them standing in the audience holding the blank canvases.
Also he has said that he will talk mentally and cause them to speak out anything he desires them to, to three people in the audience to be selected by the audience. The ones selected are to be well known and in the public eye if possible. Well educated people only can take part in this experiment.
As usual, the world-famous Simin's Seance will complete the programme, and from 300 to 400 questions will be answered.
Reserved seats may now be secured at the box office.

DOMINION
To-night Pauline Frederick will be seen for the last time in "Paid in Full" at the Dominion theatre. Independent of her genius as an actress, Pauline Frederick is a woman of beauty and magnetism—two highly essential qualifications for any player who hopes to achieve success on stage or screen. The versatility of Miss Frederick is exceptional and it enables her to portray heavy and light roles with equal effectiveness. It was Sante Beuve who said an actress required only two things to make her successful—his talent and beauty. Miss Frederick has these and more, for she couples with them a delightful personality.

sonality, conspicuousness of purpose and the strict regard for the intelligence of critics and admirers alike. Her characterizations in arduous Sardou roles, as well as in lighter picture subjects have not been surpassed in scope or cleverness by another screen player. In "Paid in Full," she has another role of unusual dramatic power and that it will not suffer at her hands is obvious to all who have learned to appreciate her artistry in the past.

PRINCESS
The curtain will rise for the first time this evening on "The Pantomime Rehearsal," the great London musical comedy success, in which Weedon Grossmith featured for many years. A really excellent evening's entertainment of the most enjoyable and amusing kind is assured intending patrons as it abounds with the prettiest of music, the most humorous and ingenious dialogue and a cast of some of Victoria's most talented artists, including amongst their number Mrs. D'Oyly Rochford, Mrs. D. B. McConnan, E. N. Hincks and others, too well known to local audiences to need any elaborate mention. The orchestra has been augmented by the addition of some excellent musicians and will be under the direction of F. J. Schi. Altogether it is an entertainment that none should miss seeing and crowded houses are predicted during the whole run, as Victorians have always shown in a practical manner their appreciation of real talent when displayed in such an entertaining enjoyable and amusing manner as in "The Pantomime Rehearsal."

PANTAGES
Major W. Taylor is stage manager for this production and as he has had considerable experience as a very successful producer, nothing will be left undone to make "The Pantomime Rehearsal" the greatest success which has yet been achieved by the members of that very clever organization, "The Princess Dramatic Society."

VARIETY
One of the many charming features in "Mickey" to be shown at the Variety for the last time to-day, is a pet squirrel which will go straight to the hearts of all children. "Children" serves a good all for Ma and Pa, for most of these things that are "for children" are like the toy railroad which little Johnny gets for Christmas and never gets a chance to play with because his father has it all day.
The squirrel does a comedy scene

ROSIE CHEEKS AND GOOD HEALTH
Come Through Keeping the Blood in a Rich, Red and Pure Condition
When a girl—or a woman—finds her color fading, when her cheeks and lips grow pale, and she gets short of breath easily and her nerves feel nervousness is often present.
The remedy for this condition is to build up the blood, and for this purpose there is no medicine that can equal Dr. Williams' Pink Pills. They build up and renew the blood, bring brightness to the eyes, color to the cheeks, and a general feeling of renewed health and energy. The only other treatment needed is plenty of sunlight, moderate exercise and good, plain food. The girl or woman who gives this treatment a fair trial will soon find her color bright, her nerves quiet and her health perfect. Mrs. Hiram Shook, R. R. No. 1, Lyndhurst, says: "I cannot speak too highly of Dr. Williams' Pink Pills, for I believe they saved my daughter's life. She was in a terribly run-down condition, pale, wan, and despondent, and people who saw her considered her in a decline. The doctor who treated her did not help her any, and then I decided to give her Dr. Williams' Pink Pills. This decision proved a wise one, for before six boxes were used she was much better. I got six more boxes, and before they were gone she was in the best of health. When she began the use of the pills she weighed only 95 pounds, and under their use her weight increased to 127 pounds. I strongly urge all mothers of weak girls to give them Dr. Williams' Pink Pills."

with a pet bulldog that is delightfully natural. Mickey's bull terrier makes one dive for the squirrel and Brer Squirrel stands not on the order of a dog. Mickey wears boy's clothes during the Brer Squirrel play and the squirrel sprints up her trouser leg.
The hero tries to save the lady from the squinting squirrel, and his gallant efforts look very peculiar to Mickey's foster father, who hastens up bent on murder and sudden death. When he sees the squirrel and joins the rescue party.

ROMANO
Jam-packed with thrills and surprises is the new World picture, "Mandarin's Gold," starring Kitty Gordon, which is showing at the Romano theatre. It is a picture that tells a strange story—the story of a young society woman who needs money badly, and who in a remarkable manner finds a strange method of securing the money she needs. The securing of the money involves a number of situations and amazing entanglements. The unfolding of the plot keeps the audience in breath-stopping suspense from start to finish.

Kitty Gordon appears in this production in the role of Betty Cardon, the society leader who needs money so badly. It is one of the very best roles that Miss Gordon has ever had. In her support are seen some of the best known film favorites of the day, Irving Cummings, who has appeared with much success in many screen productions, and in "Mandarin's Gold" as Miss Gordon's leading man. He is seen in the role of Blair Cardon, Betty's husband. George MacQuarrie, noted for his strong characterizations, appears in the role of one of the screen's most accomplished dolmators of "heavy" roles, appears in the character of Li Hsun, a Chinese mandarin. Tony Merlo, another film favorite, has an interesting role in that of Bertie Standish.
Elaborately staged, splendidly acted, and telling an enthralling story, it constitutes such superb screen entertainment.

KEEP CHILDREN HEALTHY
To keep children healthy the bowels must be kept regular and the stomach sweet. The most common ailments which afflict little ones are caused by derangements of the bowels and stomach. No other medicine can equal Baby's Own Tablets in guarding either the baby or growing child from the ill that follows a disordered condition of the bowels or stomach. They are a mild but thorough laxative and never fail to give results. Concerning them Mrs. W. B. Coolidge, Sarnia, Ont., says: "I have used Baby's Own Tablets for over three years, and have found them the best medicine I have ever used for my children. I never have any trouble giving them to my little ones and they have saved me many a doctor's bill. My advice to all mothers of little ones is to keep a box of the Tablets in the house. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

BULLER'S SHOW TO BE HERE FOUR DAYS
Promoter Has Assembled Novel Features to Join With Old Favorites
Arrangements have been completed for the appearance in Victoria of Buller's dog and pony shows. This newcomer in the ranks of tented attractions will open a four-day engagement on Monday, June 30.
It is several years since Victoria has had a circus, or any other traveling aggregation of any size exhibiting under canvas. Therefore it is expected by the management that packed houses will be the order when the big tents are erected on Belleville Street, directly in the rear of the Empress Hotel. The management have had a force of men preparing the ground for several days, and in a day or two the work will have been completed.
Many Victoria people are already aware of the fact that Buller's dog and pony shows is owned by Robert W. Buller, who has been a resident of this city for many years. Mr. Buller has extensive business interests in Victoria and all over Vancouver Island, in addition to which he is the owner of a stock farm on San Juan Island, and it is on this farm that for the past three years quiet preparation has been made for the launching of this enterprise.
Mr. Buller has with him a number of experienced showmen formerly in the employ of such shows as Ringling Bros., Sells Floto, Norris & Rowe, and other prominent outdoor circuses, and it is this capable staff of men who are directing the different departments connected with Buller's dog and pony shows.
Mr. Buller has with him this year several "Bellews" for many years chief animal trainer for the Old Norris & Rowe dog and pony show. Bellew has been on the Buller ranch all winter long educating the one hundred animals that go to make up this remarkable series of exhibitions. Bellew is considered to be the country's foremost animal educator, and it is remarkable what he has accomplished in the short time that he has been working under the Buller banner. The circus that about sixty head of trained Shetland ponies, twenty performing dogs and a troupe of trained monkeys. Besides the animal talent visitors will have the opportunity of seeing some regular circus aerial and acrobatic acts. No circus would be complete without clowns, and Mr. Buller has engaged a troupe of regular circus jesters, headed by Harry LaVarne, veteran clown producer.
The man tent or "big top" will seat two thousand people comfortably, and visitors are allowed plenty of time to inspect the animals before the performance starts. The street parade will leave the grounds at 11 a.m. and make a tour of the principal streets of Victoria. The parade will be headed by Rowland's Band, who will give a half hour concert preceding each performance, afternoon and evening.

THOSE MAD WAGS.
"He has fishing on the brain."
"Fishing tackle, you mean. I have seen him when his brain reeled."

WILL CO-OPERATE TO REDUCE PRICES
Consumers' League and City Council to Make Investigation
As a result of a delegation from the Consumers' League waiting on the Streets Committee of the City Council yesterday afternoon, a committee of the Council will co-operate with the League in order to ascertain what steps can be taken toward providing cold storage and other facilities for preserving food.
Though aware of the fact that the City Council at present had no legislative powers enabling them to operate cold storage plants, or the necessary powers to control prices charged by stall-holders in the city market, members of the League for whom Rev. H. T. Archbold and F. Povah acted as spokesmen, pointed out that the means might be found to overcome these difficulties.
The joint committee will also go into the question of food waste, and Mayor Porter promised to see that a close check is kept on the dumping of matter into the sea. One speaker said that even if food had reached the stage where it should never be dumped, as it would make valuable feed for pigs, chickens, and so forth.
The main objection raised by the League to present living conditions was that a few men had control of the facilities for storing the people's food with the result that prices were kept up. It was the object of the Consumers' League to get in direct touch with the producer, and storage facilities were required to preserve the food during distribution.
It was stated that the League had been offered cheap food by the producers which, owing to the absence of storage facilities, could not be accepted, and it went to the existing plants at low prices and ultimately the consumers had to pay a high price for it.
The question of food dumping would be severely punished if evidence of guilt could be secured, the delegation was assured. Henceforth on a close inspection of the storage plants in the city will be maintained.
E. B. Woodward, president of the Traders and Labor Council, urged that an investigation into cold storage methods should be proceeded with under the terms of the Public Inquiries Act. Mayor Porter and Alderman Sangster assured the delegation that prosecution would follow in cases where there was evidence of wrongdoing.
Members of the Consumers' League, in referring to the fact that stall-holders in the city market were charging as much as and in some cases more than the up-town dealers, objected strongly to the city maintaining commodious quarters for people who were nothing less than retail dealers, and were getting all the profits from the point of the producer.
All of these matters will be thoroughly investigated by the joint committee of the Council and the Consumers' League with a view to seeking out the best remedy.

BIG WALK-OUT STARTED IN CITY TO-DAY WHEN BOILERMAKERS STRUCK
(Continued from page 1.)

ward arrested Winnipeg strike leaders.

In the previous referendum on the Electrical Workers' sympathetic strike issue the refusal of the electrical workers to "pull" the power was undoubtedly one of the chief circumstances which prevented a tie-up. It is claimed by the leaders of the Metal Trades Council that the electrical workers are much more likely to favor a strike now that the situation is in the hands of the Metal Trades Council, with which they are affiliated. There is no probability that the power will be pulled, renewed, and decided not to pull the power, and the only thing which might possibly effect a change in that stand is the Government's stand toward arrested leaders in Winnipeg.

Will Spread, Says Dakers.
"This strike will undoubtedly spread," said James Dakers, President of the Metal Trades Council, this morning. "The unions will go back to work when things are satisfactory in Winnipeg, and there is no doubt that the Government's stand toward the arrested leaders is the greatest contributing cause of the tie-up. If the Winnipeg strike is ended, and the Government makes no change in its attitude toward the arrested leaders, it will be for the unions to decide whether or not they will return to work. If the Government changes its attitude toward the leaders, and the Winnipeg strike is not over, it will also be for the unions to decide whether or not they will return to work. The strike has started now and it is impossible to say where it will end. The strike of the Metal Trades Council will accomplish just about as much as a partial general strike which would have occurred had the Strike Committee voted for a strike on Tuesday night."

Downed Tools.
The boilermakers' union, the members of which threw down their tools at noon to-day at the termination of the half-day's work at the various shipbuilding and machine shops, has a membership of about three hundred in Victoria.

Some sixty boilermakers are employed by the Foundation Company of British Columbia, Ltd., the largest employing concern here, the majority of which are connected with the Ogden Point outfitting plant.

Prior notification was given the employers by the secretary of the Boilermakers' Union that tools would be "downed" at the noon hour in sympathy with the Winnipeg strikers.

As the workers streamed out of the yards at noon leaflets were distributed among them announcing a mass meeting of organized workers to be held at 2 p. m. to-morrow in the Royal Athletic Park for the purpose of discussing the strike situation. The dodger also announced that a strike of all metal trades would be called at 10 o'clock on Monday morning.

"Too Much Faith."
When asked for a statement as to the attitude of the company on the strike situation this morning, Edward E. Jenkins, assistant Northwest manager of the Foundation Company, said: "Supplementary to my previous statement to the effect that I have too much faith in the good sense of the workers

to believe a general strike can be possible, I might add that, relying on the evidence of improvement in the strike situation in Winnipeg, Vancouver and other points, and being convinced of the loyalty and fairplay of the union leaders, I am optimistic. I am confident that the trend of events will make it possible for the proposed strike of all trades affiliated with the Metal Trades Council of this country, but this hope has yet been taken. The labor men claim that the consent of the Seamen's Union would be secured to operate the ship.

If the suggestion is carried out the event will be unique in strike annals. Frank Slavia, who occupies the position of head watchman at the Ogden Point plant of the Foundation Company, while having ideas of his own on the general situation of unrest, declares that local labor is foolish to strike. "The Foundation Company has treated us white," he said, "and we ought to consider that before precipitating a strike. It will be the men themselves that will suffer most, married men and the men with responsibilities. Frank proposes to tell his story in his own limelight at the mass meeting to be staged Sunday."

STRIKERS IN VANCOUVER EXPECT WORD STRIKE IN WINNIPEG IS CALLED OFF
(Continued from page 1.)

While anticipating a settlement in the immediate future, the Strike Committee, it is asserted, is continuing plans for a long drawn out struggle, and is not allowing the possibility of a return to work to interfere with its deliberations.

Street Car Men.
The street railway will hold a meeting on Tuesday, when it is hinted that a statement may be made by the several hundred who are known to be opposed to the strike to engineer another vote on the strike, in the hope that instructions would be given to the executive of the union to return to work.

A meeting of the running trades has been called for Monday night, while the retail clerks are scheduled to meet on Tuesday to discuss the strike situation, it is said.

The publication of the correspondence seized at Winnipeg when R. B. Russell, the strike leader of that city was arrested, is causing considerable comment in labor circles here. While nothing definite in the published correspondence indicates to whom R. B. Russell is said to have written, it is suspected by many that the letter referring to "killing the labor party" was written to some person in Vancouver. The pamphlet entitled "The Soviets at Work" published by the Vancouver Trades and Labor Council, and its circulation among members of the One Big Union here to be a humorous way of speaking of a collection taken up by the miners of the Crow's Nest district.

\$25,000 FROM CHICAGO RED COMMITTEE SENT TO WINNIPEG RADICALS
(Continued from page 1.)

Winnipeg, June 21.—Local authorities have started a round-up of unregistered aliens. It is reported that sixteen have been arrested so far.

Winnipeg, June 21.—Following the proposal discussed at a meeting last night in Market Square of pro-strike returned soldiers to hold a "silent parade" this afternoon in which women and children were to participate, Mayor Gray published the following proclamation this morning:

"The proclamation issued by me some days ago must be strictly adhered to."

"It has been brought to my attention that a parade of men, women and children is proposed for to-day. I hereby reiterate my former proclamation that there shall be no parades until the end of the strike. Any women taking part in a parade do so at their own risk."

Likelihood of Clashes.
Winnipeg, June 21.—Clashes between civic authority and strike paraders are expected if the proposed "silent massed parade" of returned soldier strikers is carried out this afternoon as planned at a mass meeting held last night in the Market Square. The soldier strikers say: "We will parade, as the parade is the only weapon we have left." The City Council says: "No parades shall be held."

Both sides adhere to the pledge trouble may ensue. The parade is called for 2.30 p. m.

Re-iteration is now the principal issue at the strike. At the Labor Temple it is openly hinted that all other matters have been satisfactorily adjusted. While no official statement has yet been issued, it is held to be probable that if satisfactory arrangements can be arrived at concerning re-employment of the strikers—and this includes policemen, firemen, civic employees and all others—the strike will end immediately.

Federal authorities arrested six more aliens last evening and are holding them on deportable charges. They have been sent to Kingston Penitentiary Board can dispose of their cases. The new arrests, together with those carried out on Tuesday morning make the total of aliens held for deportation proceedings eleven, five still remaining at Stony Mountain Penitentiary.

The LOGICAL WAY

Looking at the question in a purely logical way, there is no reason for paying exorbitant prices for undertaking services. When we are called upon to take charge of obsequies, we bring tact, taste and skill to the task. And the same motive which impels us to do the very best we can also prevents us from taking advantage of the occasion to impose unnecessary expense upon the family we serve.

BIRTHS, MARRIAGES AND DEATHS

DIED.
LANDY.—On June 15, at Montreal, Thomas Edward Landy, aged 24 years; born in Halifax, N. S., and a resident of Victoria for twenty-two years. Deceased is survived by his mother, Mrs. T. Landy, a brother, William, and a cousin, James Landy, all residing at 2712 Prior Street. His father, Mr. T. Landy, was killed in action at Sanctuary Wood on June 13, 1916.

The funeral will take place on Monday afternoon, June 23, at 2 o'clock, from the Sands Funeral Chapel. Deceased was a member of Aerie No. 12, Fraternal Order of Eagles, of this city, and brother members are requested to attend. The Rev. Wm. Stevenson will officiate and interment will be made at Ross Bay Cemetery.

CARD OF THANKS.
Mrs. D. J. McIntosh desires to express her heartfelt thanks to her many friends for kind words of sympathy extended her and for the many beautiful flowers sent during her recent sad bereavement in the loss of her loving husband.

IMPROVEMENTS AT PORT OF VANCOUVER

Bill to Provide \$5,000,000 Introduced in Ottawa Commons

Ottawa, June 21.—A resolution providing for the advance of "such sums of money, not exceeding in the whole \$5,000,000, as may be required to enable the Vancouver Harbor Commission to carry out the construction of works and to provide such terminal facilities as are deemed necessary for the proper development and equipment of Vancouver Harbor," was passed in the Commons yesterday afternoon and a bill based upon it was introduced.

Hon. C. C. Ballantyne, Minister of Marine, stated that so far the Dominion Government had advanced no money to Vancouver. The port was a very important one, and its development was essential to the Pacific trade.

Loans to the Harbor Commission of Montreal by the Government now totalled \$28,485,000. Montreal had always paid the interest on these loans, and would continue to do so. The rate of interest on loans of this kind was to be raised from three and a half to five per cent. He was confident that Montreal would have no difficulty in meeting its payments, even at the higher rate of interest.

Quebec. As far as Quebec was concerned, the amount lent to the Harbor Commission of that city now totalled \$1,732,548. Quebec had never been able to pay the interest on its loans. These were the only two ports to which the Dominion had lent money.

Mr. Ballantyne said the revenue at the port of Vancouver so far had been very small, and it would not meet the interest unless dues were collected. He had given instructions to the Harbor Commission that this should be done, and he thought there would be no difficulty about the interest payments. He advocated the estimate of sinking funds at the three ports mentioned.

With regard to the work to be done at Vancouver, the Minister stated that he proposed going out there about the end of August. The expenditures in the next two years probably would exceed \$2,000,000.

Giving Money Away. D. D. McKenzie, the Liberal Leader, remarked that loans of this kind seemed to be merely giving money away. He wanted to know how the Government stood with regard to the loans granted to other ports.

He expressed the view that it would be better for the Government to construct and control its own terminals at important ports.

Dr. Michael Clark disagreed with the Leader of the Opposition on this point. He said that the somewhat antideclivian views of Mr. McKenzie resulted from his belief in protection.

Mr. McKenzie stated he was quite willing to be regarded as antideclivian if that implied belief in Government ownership of ports. He failed to see what connection there was between the nationalization of the ports of Canada and his attitude on the tariff.

Owned by Canada.

Hon. C. C. Ballantyne explained that no matter who did the work, the harbor improvements were all the property of the Dominion Government.

Dr. Clark said he was not opposed to the spending of money on the port of Vancouver. He desired to see the adoption of a fiscal policy that would make of Vancouver another Liverpool. J. A. Maharg asked if it was the intention of the Government that the grain elevator at Vancouver should be under the control of the local Harbor Commission.

Mr. Ballantyne said it would. The Minister also urged the need of harbor improvements at Quebec in order to encourage the carrying of grain over the National Transcontinental Railway.

AMERICAN EMPLOYERS ENDORSE PRINCIPLES

Chamber of Commerce Approves Certain Suggestions For Industrial Relations

Washington, June 21.—Twelve principles of industrial relations have been endorsed by American employers as represented in the membership of the United States Chamber of Commerce. A canvass of a referendum vote announced to-day showed the proposal for a national employment system to have been the only article of thirteen which failed to receive the two-thirds majority.

Underlying the cardinal principle that "the public interest requires adjustment of industrial relations by peaceful methods" were those declaring "the right of workers to organize" and that "industrial harmony and prosperity will be most effectually promoted by adequate representation of the parties in interest," and that industrial relation agreements should be "faithfully observed." Other declarations approved were that wages should be reduced only when the possibility of reduction of costs in all other directions has been exhausted; that every man is entitled to an opportunity to earn a living wage, and that "wages should be adjusted with due regard to their purchasing power."

Fixing of a basic day as a "device for increasing compensation" was held to be a "subterfuge that should be condemned."

FIXED PRICE OF WHEAT AND HIGH COST OF LIVING

Ottawa, Ont., June 21.—Charles Birckett, secretary of the Fort William and Port Arthur Grain Exchange, told the Commons Cost-of-Living Committee yesterday afternoon that no reduction in the cost of foodstuffs need be expected until wheat was reduced in price.

He said that wheat at \$2.25 at Fort William did not make bread very dear to the individual, because it was estimated that one person used about a barrel a year; but there were also bran and shorts to be considered; and the price of wheat was reflected on oats and barley, so that meat, milk, eggs, etc., all reflected it also.

His belief was that if the fixed price was removed, the price of wheat would drop to normal. He considered the present price fictitious, and believed it would drop to \$1.50 of \$2. He gave reasons for this. Australia had about 117,000,000 bushels of millable wheat, and Great Britain had bought a large portion of this, which was being sent to India and Egypt. At present the United States had begun garnering the winter wheat, which was the largest crop in its history.

Of the 1919 crop the United States would have from 370,000,000 bushels to 400,000,000 bushels to export. Last year's export was 200,000,000. This year Canada would have probably from 250,000,000 to 260,000,000 bushels, leaving 200,000,000 for export. Thus there would be about 400,000,000 bushels for export from the two countries.

Hoover had declared, said Mr. Birckett, that it would take 750,000,000 bushels to feed Europe, but other authorities claimed that this was too high an estimate. In any case, unless there was a calamity there would be a world surplus of wheat in September, thus bringing down the price. Great Britain had controlled the wheat situation for four years, had paid every grain dealer his commission and kept him in business, although he was playing golf. However, there would now be a change. After paying high fixed prices for years the British Government now said regarding the new crop that it would not buy wheat until it was needed, and then only in the competitive market.

UNVEILED TABLET TO FORMER GOVERNOR

Commemorative of the late Sir James Douglas, former Governor of Vancouver Island and founder of Victoria, a handsome granite tablet on a double plinth was unveiled on Elliott Street this afternoon by Mrs. Dennis Harris, granddaughter of the late Sir James. The tablet is the gift of the Lady Douglas Chapter, L.O.E.D.E. to the City of Victoria and is situated on the south side of Elliott Street, a little to the west of the Heimcken residence. It marks the site of the former gubernatorial residence, and forms a handsome ornament among the oaks and cherry trees of the district.

The Lieutenant-Governor presented the tablet, on behalf of the Lady Douglas Chapter, to the City of Victoria, Mayor Porter accepting the gift in the name of the City Representatives of the L.O.E.D.E. with their standards, Boys Scouts, the Boys Naval Brigade, Cadet Corps and members of the 50th Gordon Highlanders were present at the interesting and historic ceremony.

FOLLOWED THIS PROVINCE

Alberta Now Uses the Numbered and Bound Official Liquor Prescription Form.

British Columbia has apparently set the pace in the matter of official prescription forms. A short time ago the Alberta Government requested a sample form together with a copy of the amendments to the Prohibition Act passed at the recent session of the Legislature. A recent dispatch from the Albertan capital indicates that the new system of liquor prescriptions has been in force for about two weeks, the serial number and bound form having been patterned on the identical lines to that in operation here.

STRAWBERRY CROP IS MOVING SLOWLY ON ACCOUNT OF WEATHER

The strawberry crop is coming on slowly on account of the weather not being quite warm enough to ripen the berries, according to an announcement from the Gordon Head district this morning.

There are plenty of berries, and a few days of hot weather would result in a regular stampede to the shipping depot. Five carloads of strawberries have already gone forward consigned to the prairies, and another carload is going forward to-day.

TO ARRANGE RECEPTION

Artillery Boys Meeting To-night to Arrange Welcome For 58th Battery.

A meeting will be held in the rooms of the Comrades of the Great War, Douglas Street, at 8 o'clock this evening, at which all members of the 58th and 62nd Batteries and the 14th Brigade Ammunition Column are requested to attend. At this meeting arrangements will be made for a reception for the survivors of the 58th Battery, who are returning about the end of next week.

FRENCH ELECTIONS.

Paris, June 21.—The Senate has adopted the clause in the Chamber electoral reform bill providing for the election of Deputies by departments instead of by arrondissements. This makes it certain that the approaching elections will be held under the new electoral system, some features of which are still pending.

Discussion on the question will be resumed to-morrow.

LETTERS

Letters addressed to the Editor and intended for publication must be short, and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

WAS CROSSING THE ROAD.

To the Editor.—Mr. Hannington, City Solicitor, is reported in this morning's "Colonist" as saying at last night's council meeting when dealing with the tar damage question, "This Mr. Murray must be a most extraordinary person. So far as I can find out, he abandoned a perfectly good concrete sidewalk to walk along through the oil in the road. What he did it for I cannot guess."

Mr. Murray had to cross Fernwood Road to get home, and I would like to ask Mr. Hannington how any one living on the other side of Fernwood Road could get there without crossing the road. Mr. Murray is a returned soldier who has had nothing but bad luck since he came back, and he is just now recuperating up the island after two weeks in hospital here. Knowing him as I do I know he is not the kind of man who would make a claim for damage unless it was justified, and it shows very bad taste on the part of Mr. Hannington to indulge his poor wit in trying to hold Mr. Murray up to ridicule. The injury to Mr. Murray's clothes was bad enough without him having to put up with insult. The least the Council can do is to settle this matter in a business-like way.

GEORGE PALMER.

Pale Cheeked Women Told About Restoring A Rosy Complexion

A few years ago the girl with pale, drawn cheeks scarcely knew what to do in order to restore her fading appearance. At that time there was no blood-food medium made that really would put color and strength into systems that were more or less worn out.

To-day it's different. The blood can be quickly nourished, can be made rich, red, and healthy. All you have to do is take two Ferrozone Tablets with a sip or two of water after meals. The effect is almost magical. Mothers, look at your children. Are they ruddy and strong—do they eat and sleep well, or are they pale, weak, and anemic?

FERROZONE will rebuild them. Take your own case—is your blood strong and rich? Have you that old-time strength and vigor, or are you somewhat under the weather? FERROZONE will supply the strengthening elements you require. It is a blood-forming, nourishing tonic that makes every ailing person well.

FERROZONE is a marvelous remedy, it contains in concentrated form certain rare qualities that especially fit it in cases of anaemia, poor color, thin blood, tiredness, and loss of weight.

Every day you put off using FERROZONE you lose ground. Get it to-day, sold in 50 cent boxes by all dealers, or by mail from the Catarhosens Co., Kingston, Ont.

A Tip To Hubby

"Beat It" to the Lacrosse Game-But How About Wifie?

GREAT Saturday afternoon; couldn't stay home if you tried. Been working hard all week and deserve the afternoon off. But, before you close the door on your way out, just take a look round and see if wifie isn't "tied down" to her work. Suppose you take her along. Tell her that she'll have 15 extra leisure hours for every 50-pound sack of flour if she buys baker's bread.

Don't wait until she stops summer baking of her own violation. Spring a surprise on that little housekeeper of yours. Take home a loaf of bread that will satisfy her most critical taste. Take home a loaf of SHELLY'S 4-X BREAD. "Tip off" the grocer.

SHELLY BROS. LIMITED Phone 444

14,000 Red Shield Envelopes Have Been Delivered—One Came to Your Home

The Salvation Army calls attention to the fact that the money is needed for its work of proved value to the returned soldier and his dependents during demobilization and the reconstruction period.

Don't Fail the Salvation Army—They Never Failed Our "Boys"

Name	Address
Father	
If you were not reached at your work or place of business enclose your cheque in the envelope.	
Girls	
You can do a good deed by seeing everybody gives as well as by giving yourself.	
Mother	
There is no reason why you should not give expression to the feelings of your heart by giving.	
Boys	
Any good big-hearted boy will find a means of giving to such a worthy fund as this.	
1. Fathers (if not touched elsewhere).	
2. Mother (Mothers always understand).	
3. Boys (The big-hearted boys).	
4. Girls (The tender-hearted girls).	
5. Guests (Why not?)	
6. Visitors (Sure thing)	
TOTAL	

When a contribution commensurate with your heart and ability is enclosed IT CONTAINS:
 Help to the Soldier returning—not to a comfortable home like yours; not to the waiting arms of loved ones—but to LODGINGS.
 Help to the desolate wife whose husband lies under the sod in France;
 Help to the children of the heroic dead whom the Army "mothers" for you.
 Shall it go empty? Shall they be denied? No! No! No!!! Give as deep down in your soul you feel you ought to give.

If not called for by authorized canvassers by June 15th, kindly mail to the Red Shield Treasurer, P. O. Box 982, Victoria, B. C.—God Bless You.

Lay Your Gift on the Altar of Humanity

The above envelope will be called for on Monday, June 23. Have yours ready with all the gifts enclosed. Help of 60 ears and 250 people is urgently needed to collect them in. Why not offer to help? Only an hour or so pleasant work. Get in touch with

City Brokerage

A. T. BERRY 605 Union Bank Building Phone 415

Gordon Head

WE HAVE FOR SALE one of the best strawberry and cherry ranches in this district, with a large modern bungalow of 6 rooms. There is a wonderful strawberry crop now in full swing. Price \$1,500. This is sold off last year with a small profit. There is a great equity, but it will give more returns than many a 1/2 section of prairie. Inquire from A. B. Grubb, in Bellevue, where you have a look at the crop. Price and particulars from the agents.

THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA.

SOUTHERN OKANAGAN LANDS.

NOTICE TO CONTRACTORS.

SEALED TENDERS, superscribed "Tender for Excavation of 1st Unit of Main Irrigation Canal, Southern Okanagan," will be received by the Honorable the Minister of Lands up to 12 o'clock noon of Thursday, the 19th day of July, 1913, for the construction and completion of approximately 8 miles of main irrigation canal from the point of diversion on Okanagan River; together with such excavations for structures incidental thereto as may be required.

Plans, Specifications, Contract and Form of Tender may be seen on and after the 21st day of June, 1913, at Government Agent's Offices at Fairview and Vancouver, and at the Water-Rights Branch, Victoria.

Copies of Plans and Specifications may be obtained at any of the above offices on deposit of the sum of Ten (\$10.00) Dollars, which deposit will be refunded upon the return of the Plans and Specifications accompanied by a proper tender.

Each proposal must be accompanied by:

(a) Consent in writing of a Surety Company acceptable to the Honorable the Attorney-General that should the proposal be accepted it will become surety in the sum of Twenty-five Thousand (\$25,000.00) Dollars for the faithful performance of the Contract; or

(b) An accepted bank cheque on a chartered bank of Canada, made payable to the Honorable the Minister of Lands for the sum of Three Thousand Five Hundred (\$3,500.00) Dollars, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished. The lowest or any tender not necessarily accepted.

304-5 VANCOUVER BLDG. VANCOUVER, B.C.

W. G. STEVENSON IS CALLED BY DEATH

Was Well-known Figure in City's Life Before Retirement

The death has occurred in California of W. G. Stevenson, who until he left Victoria seven or eight years ago, was for a period of over thirty years well-known in Victoria.

Mr. Stevenson had a host of friends in the city among whom he was familiarly known as "Billy." He came to Victoria from Ontario, and first established the old Pritchard House, where the Imperial Hall of Canada now stands, with James Gray, who afterwards went to Washington, as his partner. Later Mr. Stevenson took over the Dominion Hotel, which he was proprietor for many years.

He was a prominent man in sporting circles taking a great interest in all branches of sport. Horse racing, however, was his chief hobby, and he owned a string of fine animals and carried off many of the chief events at the meets held on the Willows track. His favorite horse, "The Futnam" will be well remembered by all turf followers in Victoria in the days when racing was in full swing.

He was for years a member of the organization of sportsmen, most of whom were in different parts of Canada among the members of that order.

When Mr. Stevenson went to San Francisco he again established himself in the hotel business. He also took a keen interest in sports in the Golden Gate city and became a member of the Indoor Yacht Club, an organization of sportsmen, most of whom have passed the days when they are able to take part in games on the sports field, but still retain their interest as spectators and devote their time to the encouraging sport. Mr. Stevenson passed away in that city on Monday at the age of sixty years.

The interment took place to-day. It was a private funeral, and proceeded from Victoria to San Francisco for the funeral.

ANOTHER HONOR WON BY CENTRAL SCHOOL CADETS

For its remarkable display of efficiency and knowledge, the cadet corps of the Boys' Central School will be awarded not only the Forsythe Shield for competition among Victoria schools but also the British Campaigners' Association Shield for competition among the schools of Vancouver Island. The presentation of the trophies will take place on Thursday.

The corps which has carried off these coveted honors consists of two big platoons comprising some 150 cadets from the eight upper classes of the school. Commanded by H. W. Creelman the corps gave a remarkable exhibition of proficiency during its recent inspection.

The Boys' Central School Cadet Corps was founded by Captain W. J. Wilby, and for many years past has been a leading competitor for honors among the other corps of the city and of the Province.

SICK HEADACHE and CONSTIPATION CURED BY Milburn's Laxa-Liver Pills

When your liver becomes sluggish and inactive, the bowels become constipated, the tongue becomes coated, the breath bad, and the stomach all out of order.

Then come those terrible sick headaches. They take out every bit of life and ambition, bring on depression, and often end in complete mental and physical prostration.

To keep the liver active, and your bowels moving regularly is the only way to get rid of the constipation and the distressing sick headaches. Milburn's Laxa-Liver Pills will do this for you by stimulating the sluggish liver into manufacturing sufficient bile to act properly on the bowels, thus making them active and regular.

Mrs. Winslow McKay, Jordan Branch, B. C., writes: "I have been sick for a number of years with sick headache and constipation. I tried all kinds of doctors, but tried Milburn's Laxa-Liver Pills, and after using four vials I am completely cured, I would heartily recommend them to all sufferers."

Milburn's Laxa-Liver Pills are small and easy to take; and do not grip, weaken or sicken as so many pills do. Price 25c. a vial at all dealers, or mailed direct at address of The T. Milburn Co., Limited, Toronto, Ont.

COAL RETURNS FOR THE MONTH OF MAY

Vancouver Island Collieries Produced 135,122 Tons Last Month

According to the official returns made to the Provincial Department of Mines this morning the output of coal for British Columbia during the month of May was 173,497 tons, to which amount the mines of Vancouver Island contributed 135,122 tons.

The following figures indicate production at the various collieries on the island: Western Fuel Company, Nanaimo Colliery, 48,012 tons; Canadian Collieries (Dunsmuir), Limited, Comox Colliery, 44,227 tons; Extension Colliery, 29,968 tons; South Wellington Colliery, 7,783 tons; Pacific Coast Coal Mines, Limited, Morden, 6,170 tons; B. C. Coal Mining Company, East Wellington, 1,508 tons; Nanose Collieries, Limited, Grant Colliery, 337 tons; Granby Consolidated Mining, Smelting & Power Company, Cassidy, 5,857 tons; total, 135,122 tons.

Returns from the Crow's Nest Pass Collieries for the past month show an output of 45,375 tons made up by the various companies as follows: Crow's Nest Pass Coal Company, Coal Creek Colliery, 26,084 tons; from the company's Michel colliery, 14,924 tons; Corbin Coal & Coke Company, Corbin Collieries, 4,367 tons; total, 45,375 tons.

Private service was held over the remains of Mrs. Arnes Graham Currie, late of 35 Hillside Avenue, at the B. C. Funeral Chapel this afternoon, the Rev. A. S. Colwell officiating. Mrs. Graham, who passed away at St. Joseph's Hospital on Thursday afternoon, was fifty years of age and a native of Scotland. She is survived by her husband and one son, both of this city. Interment was made at Ross Bay Cemetery.

Wives and Mothers Need Not Have Sore Backaches

Constantly on their feet, attending to the wants of a large and exacting family, women often break down with nervous exhaustion.

In the stores, factories, and on a farm are weak, ailing women, dragged down with torturing backache and bearing down pains.

Such suffering isn't natural but it's dangerous, because due to diseased kidneys.

The dizziness, insomnia, and other symptoms of kidney complaint can't help themselves, they require the assistance of Dr. Hamilton's Pills which go direct to the seat of the trouble.

To give vitality and power to the kidneys, to lead acid to the bladder and liver, to free the blood of poisons, probably there is no remedy so successful as Dr. Hamilton's Pills. For all womanly irregularities their merit is well known.

Because of their mild soothing and healing effect, Dr. Hamilton's Pills are safe, and are recommended for girls and women of all ages. 25c. per box at all dealers. Refuse any substitute for Dr. Hamilton's Pills of "Wardrobe and Butternut."

BLUE FUNNEL LINE HAS RESUMED PANAMA SERVICE

Steamship Astyanax Clears From Liverpool for British Columbia Ports; Efforts Will be Made by Company to Give Monthly Sailings.

Resumption of the Blue Funnel Line steamship service between United Kingdom ports and British Columbia via the Panama Canal, which was suspended during the war, is announced with the departure from Liverpool of the British steamship Astyanax for Victoria and Vancouver.

Carrying cargo for San Francisco, Seattle and British Columbia ports, the Astyanax cleared from Liverpool on Wednesday and is scheduled to arrive here about the end of July. The service has been resumed by Alfred Holt & Co., operators of the famous Blue Funnel line of steamers, with the sanction of the British Shipping Controller, under whose direction a large proportion of British ocean tonnage is still being operated.

Up to the time of the suspension of the service through the exigencies of war the Blue Funnel Line maintained a monthly service between England and this coast by way of the Panama Canal.

Monthly Schedule.

Although the company is not yet in a position to issue a definite schedule of sailings it is expected that an attempt will be made gradually to restore the original service.

The Astyanax is a vessel of 3,021 tons net and 4,872 tons gross and was built at Greenock in 1906. Her dimensions are: length, 323.3 feet; beam, 49.2 feet; and depth, 23.7 feet. She is a single screw steamship developing 500 horsepower.

The Astyanax was built for the China Mutual Steam Navigation Company, Ltd., which concern, many years ago, was absorbed by the Blue Funnel Line.

The Blue Funnel steamships maintaining the trans-Pacific route between Hongkong, Yokohama, Victoria, Vancouver and Seattle, are the Cyclops, Proteus and Tyndareus.

The Cyclops is now on this coast discharging her inward cargo.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength.

This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

George Emery, a student at the Y. M. C. A. College at Chicago, will be boys' work secretary for the Calgary Association during the summer.

CONSTANT PAIN AFTER EATING

The Tortures of Dyspepsia Corrected by "Fruit-a-Tives"

St. Martin's, N. B. For two years, I suffered tortures from Severe Dyspepsia. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth. I tried doctors, but they did not help me. But as soon as I started taking "Fruit-a-Tives" I began to improve and this medicine, made of fruit juices, relieved me when everything else failed. MRS. HUDSON MARSHBANK. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-Tives Limited, Ottawa.

KATORI MAKES JAPAN AHEAD OF SCHEDULE

N.Y.K. Liner Cut Her Running Time by Day on Pacific Passage

Cutting down her running schedule by a full day the Nippon Yusen Kaisha liner Katori Maru, from Victoria reached Yokohama, June 16, according to advices received by agents of the company.

The next passenger arrival of the Nippon Yusen Kaisha in Victoria will be the Kashima Maru, due here next Wednesday, having left Yokohama, June 12.

Telegraphic reports received here indicate that the Kashima carries 128 first class passengers, 28 in the second cabin and 182 steerage.

July 3 the freighter Yotorofu Maru is scheduled to reach Puget Sound from Japan ports via San Francisco.

According to unofficial reports, the first of the three 20,000-ton steamships for trans-Pacific service of the N. Y. K. line will probably be built in England and then used as model for the others, to be laid in Japan.

It is also understood that the line also proposes two or three 6,000-ton passenger ships for the Shanghai service and also on the route to Europe. The N. Y. K. building program will be completed in three years.

Eczema Wash

A touch of D. D. D. to any eczema sore or itching eruption and you'll be able to rest and sleep once more. Think—just a touch! Is it worth trying? Get a trial bottle to-day. Your money back if the first bottle does not relieve you.

C. H. Bowers, Druggist, Victoria. L. H. Rouse, president Big Six Typographical Union, New York, will address the Y. M. C. A. Summer School at Silver Bay this summer.

PROPOSAL TO AMEND CANADA SHIPPING ACT

To Give Minister of Marine Jurisdiction in Matter of Ship Registry

Ottawa, June 21.—At the afternoon session of the Commons yesterday, the resolution providing for an amendment to the Canada Shipping Act so as to provide that no transfer or mortgage of a British ship registered in Canada to a person not qualified to own such a ship shall have any effect unless approved upon it by the Minister of Marine, was carried.

The bill to amend the Fisheries Act so as to increase the license fee of British Columbia canneries from \$50 to \$500 created some discussion in the House this afternoon.

J. H. Sinclair said he understood that a great many Canadian canneries were interested in the Fisheries Act and the Government propose to pass any regulations prohibiting the importation of canned salmon until such time as the surplus was disposed of.

Hon. C. G. Mulholland stated that the Government had nothing of this kind in view.

The bill was reported out of committee and given third reading.

Youthful, Beautiful Skin Easy to Have

You may be as healthy as a bird in the air and still have a poor complexion. Changing seasons and temperatures, wind, dust and dirt are apt to injure any skin, even though the general health be good.

When these external influences come to the complexion, the natural thing is to remove them as soon as possible. Ordinary mercurized wax will do this. It actually absorbs the weather-soiled film, but the weather-soiled film you'll have a brand new complexion, a new skin.

The exquisitely beautiful and youthful complexion achieved so easily, without harm or discomfort, there's no reason why any woman should not adopt this simple treatment. Just get an ounce of mercurized wax at any drug store, apply nightly like cold cream, washing it off in the morning. This will not fail in any case. It is the best thing known for freckles, moth patches, liver spots and pimples.

SALVAGED VESSEL DOING GOOD WORK

Frances L. Skinner, Salved by Local Concern After Ten Years Ashore, Heard From

Operating with an efficiency and dispatch that places her among the best freighters on the Atlantic, the steamship Frances L. Skinner is now on her second voyage from New York to Europe since she was released from government service by the United States Shipping Board. The vessel is owned by D. E. Skinner and associates of Seattle.

On the first voyage following her release, the Frances L. Skinner carried a full cargo from New York to Havre, France. On the present voyage she is taking a full cargo to Rotterdam. She sailed on the present voyage last Tuesday.

The Frances L. Skinner represents one of the modern wonders of the sea. Years ago she belonged to the Kosmos line of Germany, plying between Europe and Seattle via the Straits of Magellan and ports of Chili and Peru. On one of the voyages she crashed ashore on the Guatemala coast and lay there for three years until she was surrounded by solid sand. The growing shortage of ocean tonnage in the early part of the European war called attention to the possibility of floating and repairing the steamship, then known as the Segotria. Ownership was acquired by Mr. Skinner and associates and in one of the greatest engineering feats of the kind in modern times, the steamship was floated by the B. C. Salvage Co. of Victoria. She arrived at the Skinner & Eddy plant at Seattle in May, 1917, and went into commission two months later.

She was one of the steamships taken over by the United States Shipping Board and was used in the government service during the war period and up to the early part of the spring. On her release, the owners placed her in operation in the Atlantic routes.

MAKURA MAY NOT GET AWAY UNTIL STRIKE SETTLED

Vancouver, B. C., June 21.—Indications are that the Canadian-Australian liner Makura will not leave this port until the present strike has been settled owing to the more hopeful turn of affairs at Winnipeg and what is believed to be the disintegration of the strike movement.

At least 150 passengers are now living aboard the ship at the company's expense and aside from some little impatience for the sailing date to arrive they are comfortable and well fed. It is understood that the Makura is also held up by the strike in a New Zealand port and that it is quite likely that both vessels will interchange dates when they next get steaming orders. No attempt will be made to discharge the Makura cargo at present, but if the strike is called off this will be done immediately.

It is estimated that since the strike has been in progress the local longshoremen have lost between \$50,000 and \$60,000 in wages. In addition to this the Makura cargo has not been handled and a sugar boat is lying idle. The Methven cargo will be handled by the company and vessels are being diverted to other ports. Included in the latter are the Pacific Steamship Company's steamer which makes weekly calls. All the coastwise work has also been lost. One volunteer longshoreman working on the Key West states that he has earned \$97 since the strike was called.

Good progress is being made on the steel freighter Melville Dollar, which is being unloaded at the Great Northern. There are five gangs of volunteers working on the ship, including many from the office staff of the company, working the cargo. The vessel is rising steadily in the water. No attempt has yet been made to take the sugar cargo off the Annette Rolph, which is moored at the B. C. Sugar Refinery.

Loss in Wages. It is estimated that since the strike has been in progress the local longshoremen have lost between \$50,000 and \$60,000 in wages. In addition to this the Makura cargo has not been handled and a sugar boat is lying idle. The Methven cargo will be handled by the company and vessels are being diverted to other ports. Included in the latter are the Pacific Steamship Company's steamer which makes weekly calls. All the coastwise work has also been lost. One volunteer longshoreman working on the Key West states that he has earned \$97 since the strike was called.

Washington, July 21.—Nineteen steel cargo ships aggregating 128,472 deadweight tons, have been sold at prices ranging from \$210 to \$225 a ton to New York ship operators by the shipping board. Chairman Hurley, in a statement characterized the deal as the greatest sale of steamship in the history of the shipping industry. The total consideration involved was \$27,821,120.

SHIPPING INTELLIGENCE

SHIP CHANDLERS LIMITED

Formerly PETER McQUADE & SON, LIMITED 1214 Wharf Street Phone 41 ILO OIL and GREASE Manufactured by W. B. Dick & Co., London, England The following statement is made by a prominent professional man of this city: "At 10,000 miles I took my automobile engine down and found it in good shape. I have taken it down at 20,000 miles and found no carbon and no signs of wear. From my experience can confidently recommend it."

WALTHAM THE WORLD'S WATCH OVER TIME

WALTHAM Convertible Bracelet Watch. WITH all the accuracy for which Waltham has become world-famous, this dainty little watch possesses unique beauty and distinction. It is pre-eminently the watch for women. At the bottom of the case is a small eye to which, when open, one end of the bracelet is attached. But if you desire to wear the watch in some other way—on a chain or brooch, or as a ribbon wrist watch, for example—a slight pressure of the finger folds the eye back flush with case, leaving no indication of its use as a Bracelet Watch. This versatility of wear is very useful because the watch can be worn in whatever manner fashion may dictate. As a gift for a bride, or a girl graduate, or as a birthday gift or a present for any like occasion, the Waltham Convertible Bracelet Watch enjoys wonderful vogue. Ask you jeweler to show you this popular model.

The dainty little watch that can be worn in whichever style that fashion may dictate.

TRY THIS RECIPE FOR JELLY CAKE

One cup of flour, 1 1/2 teaspoons baking powder, 1 cup of sugar, 8 tablespoons of hot water, 2 eggs. Mix and sift all dry ingredients, stir in the well-beaten eggs, add hot water, beat the batter well and pour into a smooth, well-greased JELLY CAKE PAN. The batter should be a quarter of an inch deep, if thicker, the cake will not roll nicely. Bake slowly in a moderate oven. Dust a sheet of brown paper with powdered-sugar, on which to turn the cake when done. Beat up the jelly with a fork and spread on the cake. Trim off all crusty edges, roll it up by lifting one side of the paper while hot. If allowed to cool the cake will break white rolling. To keep the cake perfectly roller-roll all in a clean cloth, let stand until cold.

Commission Will Still Fight for Supervision of Play in City Parks

Will Try to Get Matter Revived Before Next Meeting of the City Council; Members in Conference Last Evening

Discussing the City Council's action in refusing to make an appropriation of \$1,550 for playground supervision the executive of the Victoria and District Recreation Commission, at a meeting held at Dr. M. Raynor's office last night, declared they had no intention of accepting the decision as final, and would push the matter until the aldermen were brought to realize both the necessity of the appropriation, and the feeling of parents and citizens generally in favor of money being spent for the purpose asked.

At Next Council Meeting.
With the holidays close at hand, the need of immediate action was emphasized. The point was also made plain that the commissioners would be perfectly satisfied for the Council to set aside the amount asked for, and handle the fund itself. "In fact," said Chairman Lester Patrick, "we would prefer that this commission should not handle a cent of the money."

For the information of those who were not acquainted with the need for the money, the itemized statement covering the three months supervision sought read as follows:
Salaries, Central, two supervisors for three months, \$525; two for Beacon Hill for three months, \$525; one for Victoria West for three months, \$300; making a total of \$1,350. Hand equipment for three playgrounds, \$150.—Extra \$160, making the \$1,550.

Disappointed.
A letter was read from Rev. R. M. Thompson, of Wesley Church, District Secretary of the Social Service Council, expressing approval of the work of the commission, and disappointment at the action of the council in refusing the grant. A letter was also read by W. H. Austin, Garden Canyon Arizona who was for three years playground supervisor at Vancouver, stating that he was in liberty for an appointment as a supervisor if one was needed. Mr. Austin stated that he had read of the commission in The Daily Times.

New Delegates.
Intimation was received that Miss M. Gladstone and G. Astey had been appointed by the Victoria and District Teachers' Association to represent the association on the commission, and that the township of Esquimalt has appointed the Reeve and a councillor to represent Esquimalt.

In opening the meeting Lester Patrick referred to the action of the aldermen, who, after leading the deputation who waited on them in committee meeting to believe they were in favor of the appropriation, evidently suffered from a change of heart in the two intervening days and voted down the proposition in Council. When the commission was formed, he stated, the object was to better conditions all round for the benefit of the children, the prime reason being to see that the parks were properly supervised.

Representative Commission.
In view of the fact that the commission was representative of the entire city it was difficult to understand Mr. Patrick said why the City Council paid so little attention to the request. Alderman Harvey, he mentioned, was in favor of the scheme, and the reason he made a proposal that \$1,000 should be granted was that he would rather see that amount set aside for the work than nothing at all.

"Leader of Opposition."
Rev. R. M. Thompson remarked that Alderman Andros seemed to be the leader of the opposition. "He quotes his boyhood days to show that this supervision is unnecessary," remarked the chairman. "I think that is a slur on the intelligence of this commission."
"He is a product of the system," remarked Mrs. Graves.
"A product of non-supervision, and an argument for supervision," commented Dr. Raynor.
The parks were not suitable places for children without a supervisor in attendance, Captain Aitken remarked. There were children who would not use the parks as they were at present.

SWAIZEMA CURES ECZEMA

Read this testimonial.
Just a line to advise you the results received after taking fourteen bottles of your Swaizema medicine. I had been troubled with Eczema for two years, and so much so, that I was at times laid up and unable to work.
I tried everything I know of, and was unable to get any permanent relief. I also tried six different Doctors, and had the same results from them, getting relief for a short time only. I then tried your medicine, which has given me not only relief, but as far as I know, cured me entirely, and will be glad to have you refer any one to me at any time.
